## PRESIDENT WILSON CONFERS WITH LABOR LEADERS HIS KNOWLEDGE OF SITUATION MAY AVERT A STRIKE

The Brotherhood Chiefs Express Amazement at President Wilson's Familiarity With Situation and His Grasp of the Whole Contention.

Later Confers With Railroad Managers.

The Presidents Clear Understanding of the Big Problem Raises the Hope That Trouble May Yet Be Avoided.

Associated Press Dispatch.

WASHINGTON, AUGUST 14.—

SPECTS FOR AVERTING A

NATION WIDE RAILWAY STRIKE

AT LEAST FOR THE FORMU-

LATION OF SOME TENTATIVE

PROGRAM WHICH WILL BE THE

FOUNDWORK FOR FURTHER

NEGOTIATION, BRIGHTENED UP

TODAY AFTER PRESIDENT WIL-

SON HAD CONFERRED WITH 35

CHIEFS OF THE GREAT BROTH-

ERHOODS.

After the conference, the brother-

hood men declared the President's

grasp of the situation and the posi-

tion of the men might result in an

understanding being reached, and

others in touch with the conference

and the representatives of the men

showed a disposition to co-operate to

avoid a strike.

After hearing the leaders of the

brotherhood two hours, the President sent

for the managers for a conference

at 3 o'clock this afternoon.

How far whatever progress made

at the conference with the men can

be toward averting a break cannot

be determined until after the Pres-

ident confers with the managers' committee.

THE PRESIDENT, ACCORDING

TO THOSE WHO ATTENDED THE

CONFERENCE, SHOWED A FAM-

ILIARITY WITH THE SITUATION

THAT SURPRISED THE MEN.

"THE PRESIDENT WAS MOST

EMPATHETIC," SAID ONE OF

THE BROTHERHOOD LEADERS,

AND HIS SURPRISING KNOW-

LEDGE OF THE SITUATION AND

OF OUR POSITION MAY RESULT

IN AN UNDERSTANDING BEING

REACHED."

The President, it was said, sub-

mitted no counter position to the

men, but he held out hope for an

adjustment by legislation, if neces-

sary.

After introducing the committee

of managers to President Wilson at

the White House this afternoon,

Judge Chambers, of the Mediation Board said:

"The ice appears to be melting a little."

He said he was more hopeful that a strike would be averted than when he came from New York this morning.

By Associated Press Dispatch.

New York, August 14.—If President Wilson fails to persuade the railroad men and their employers to settle their differences, and a general strike is called, it will be directed from headquarters in this city. This announcement was made today.

At brotherhood headquarters, it was said that all preparations had been made for putting into effect a strike that would stop every train—passenger and freight—on the 225 railroad systems of the United States.

Authorities have declared that while the national labor laws gave the President no right to interfere officially, the broad police powers vested in him gave him authority to put soldiers on the trains and even to declare martial law if he believed the peril of the situation called for such drastic measures.

Attention was called to the last national railroad strike, in 1894, when President Cleveland used the Regular Army to guard locomotives and cars.

The tension in business circles here today showed a realization of the acute danger of a national calamity.

An aggregate of financial losses running perhaps into hundreds of millions, labor idleness and food privation were some of the possibilities which a strike presented.

### CONFUSION

The suspension of the country's export, the congestion of imports at coast cities, the stranding of hundreds of thousands of travelers and summer resort visitors far from their homes—these are other possibilities which the strike situation presents, to say nothing of its effect on the railroads themselves and their employees.

## BORROWING BABES FOR ICE CARDS

Latest Plan to Get Ice in Toledo Is Unique and Proves Effective.

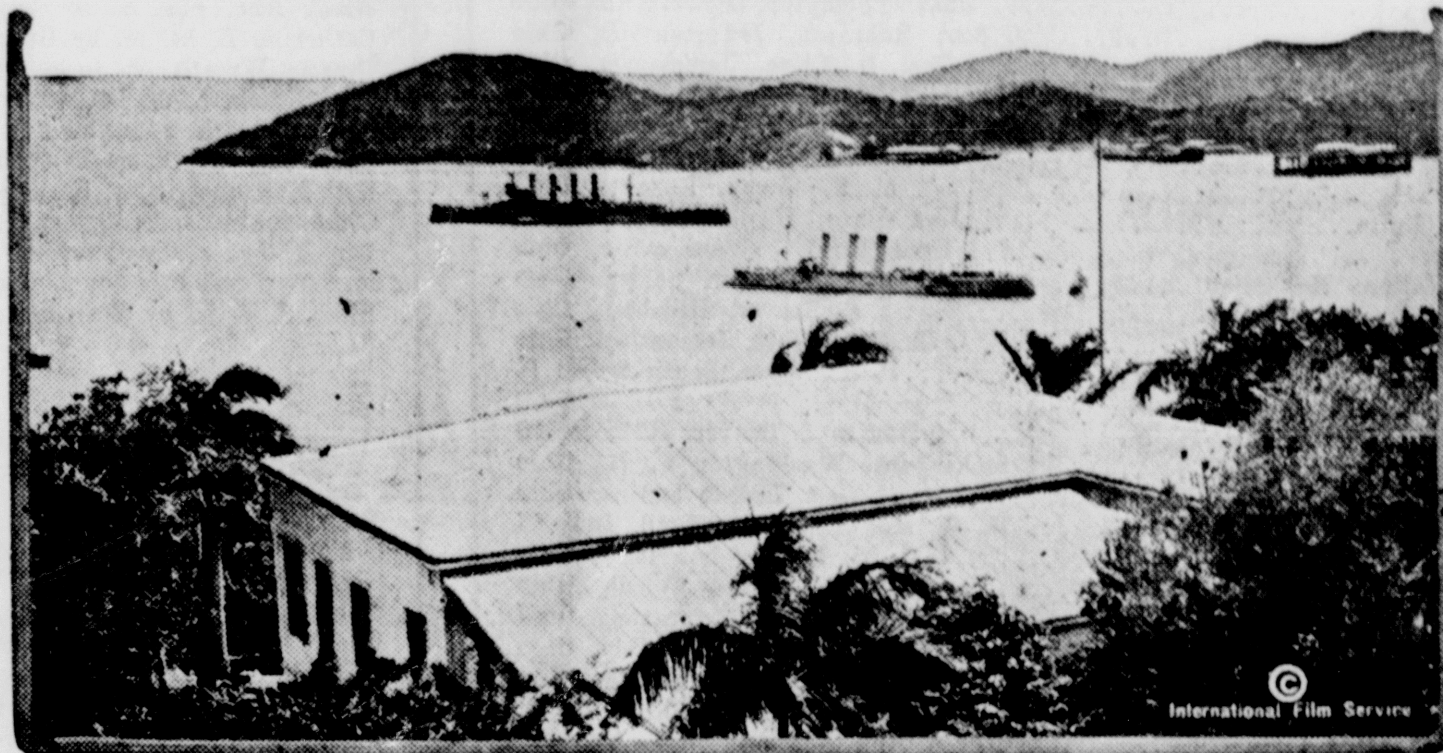

By Associated Press Dispatch. Toledo, O., August 14.—Loan-

ing babies to be used as ice cards is the latest invention of Toledo housewives during the ice famine.

The plan worked to the satisfaction of at least three families, but when the same baby was loaned to a fourth woman, and duly exhibited when the ice man appeared, the latter became suspicious.

It developed that one baby had been passed along the line to four women, it having been announced that ice would be delivered to those who had babies.

### CAN WE BUY THIS HARBOR FROM DENMARK?

This is a view of the excellent harbor of Charlotte Amalie, St. Thomas, in the Danish West Indies, which islands the United States wishes to purchase from Denmark. In that country a campaign to prevent the deal has been started and may be successful.

ITALIAN ARTILLERYMEN ON WAY TO FRONT

## IMPROVEMENT IN EPIDEMIC

Number of New Cases Falls Below Hundred Mark.

New York, August 14.—The epidemic of infantile paralysis took a turn for the better today.

The number of new cases reported went under the hundred mark for the first time in several weeks.

During the 24 hours ending at 10 a. m., the plague killed 31 children, and 95 new cases were reported.

This compares favorably with yesterday's figures, when there were 141 new cases and 22 fatalities.

The falling off in cases was attributed to the cooler weather.

## RUSSIAN DRIVE IS PRESSING LINE BACK

Marvelous Advances Being Made By Czar's Forces in Galicia.

(Associated Press Cable.)

LONDON, AUGUST 14.—THE RUSSIAN DRIVE IN GALICIA IS PUSHING THE AUSTRO-GERMAN ARMIES BACKWARD TOWARD LEMBERG AT A RAPID RATE.

Both flanks of General Count von Bothmer's army on the Lemberg front are under heavy pressure, and its center is accounted by military observers to have none too secure a position in its rear.

Petrograd announces today, new gains for the Russians on the northern wing of this front, while today on the south they are continuing their thrusts up the Dniester, seven miles from Halicz.

The Russian armies in the center also are pushing the Austrians in the middle Strippa and Koropice regions.

Continuing their advance from Gorizia, on the Isonzo front, the Italians have made further progress to the southeast.

Rome reports the piercing of a strongly defended Austrian line east of Hill 212 and the capture of about 890 additional men.

The Austrians sharply attacked along other sectors of the front but

were repulsed in all attempts, the Italian War Office announces.

Following the usual course, the Germans have sharply counter attacked along the line west of Polzeres, which London last night reported the British to have carried to a depth of three or four hundred yards on a front of nearly a mile.

The attack was partly successful, the Germans gaining a foothold in a portion of the lost trenches.

Following up their gains on the north bank of the Somme, the French are pushing their advance to a point where German evacuation of Cleary, commanding the direct approach to Peronne from the north-west, may be compelled.

## SLOW NEWS OF ELECTION

Secretary of State on Democratic and Judge on Republican Ticket in Doubt.

By Associated Press Dispatch.

Columbus, O., August 14.—Returns from last Tuesday's state primary were still missing from Hamilton, Licking and Medina counties today.

Until these counties report the nomination for secretary of state on the Democratic ticket and for the second nomination for Judge of the Supreme Court on the Republican ticket will be in doubt.

Returns from 85 counties on the Democratic ticket for Secretary of State give William D. Fulton of Newark, 36,796 votes, to 33,453 for J. Henry Newman, of Columbus.

The figures on the Republican side show that James Joyce, of Cambridge, lead candidates for the nomination for Supreme Court bench with 30,891 votes in the 85 counties, while Willis Vickery, of Lakewood and Augustus N. Summers, of Springfield are running close for the other positions.

## OHIO BOYS WAIT WORD

No Official Word Fixing Time for Departure of the Troops Comes From Department.

By Associated Press Dispatch.

Camp Willis, Columbus, August 14.—With no official word from War Department officials backing up news dispatches from Washington Saturday to the effect that the Ohio National Guardsmen are to be sent to the Mexican border "as soon as equipped," guard officials were today anxiously awaiting some definite word, and, in the meantime, were making ready wherever possible, so the least possible time would be required when the final word "go" arrives.

Officers, however, seem optimistic and believe some of the troops will be out of camp before the end of the week.

## MINERS FAIL IN ATTEMPT

Operators and Workers in Columbus Session Make No Progress.

By Associated Press Dispatch.

Columbus, O., August 14.—Mine operators and representatives of striking miners of the Hocking Valley district failed to reach an agreement at a conference here today. Both sides will continue negotiations.

The miners struck last week, when the operators increased the price of powder used by the men in mining coal.

There are 2,500 miners on strike and nine mines are idle.

## DELEGATES MUST COME WITH LABELS

By Associated Press Dispatch. Toledo, August 14.—Every delegate to the Thirty-Third Annual Convention of the Ohio Federation of Labor will be required to show as credentials union labels on his clothing, according to information received by local union men from the secretary of the state organization.

The convention will be held here October 9 to 14.

R. G. JEFFERSON, President.

W. B. ROGERS, Secretary.

### MORE TROUBLES FOR C. H. & D.

Cincinnati, O., Aug. 12.—Suit for the foreclosure of the general mortgage of the Cincinnati, Hamilton and Dayton Railroad Company, executed July 1, 1910 to the Central Trust Company of New York, as Trustee, to secure a bond issue of \$20,000,000, of which \$17,736,000 is alleged to be outstanding, was filed in United States District Court yesterday by the Central Trust Company.

The company avers interest defaults were made on these bonds in

January and July 1915, and in January, 1916, and that these interest installments amount to \$266,040 for each period. It is alleged under the terms of the mortgage notice was given to the defendant company duly declaring the principal and interest to be due and payable because of the default of interest for a period in excess of six months, and there now is due \$17,736,000 and interest to the bondholders.

Court is asked to declare the general mortgage to be a valid lien upon the property of the railroad company, and that the company be adjudged to be obligated to pay the sum due on the bonds and coupons, together with the costs and other

expenses of the trustee in the litigation.

This is the third foreclosure proceeding brought against the C. H. & D. Company since July 1, 1914. The first foreclosure suit was brought by the Bankers' Trust Company of New York, as Trustee, under the first and refunding mortgage of the railroad company, July 2 1914. In this proceeding Judson Harmon and Rufus B. Smith were appointed receivers of the road.

### WOUNDED VETS DRAW ATTENTION

(Associated Press Cable.)

London, Aug. 14.—The first veterans of the war wearing the new stripes of gold braid recently decided upon by the War Office as mark of distinction and honor for those who have been wounded in battle have appeared on the streets.

Wherever they have appeared the men have been the object of the greatest attention and homage, so much, in fact that in many instances the recognition of their efforts has been embarrassing.

The thin stripe of braid is worn on the cuff of the left sleeve—one stripe for each wound.

### HUGE GASSER

The Ohio Fuel drilled in a big gas well on the Sam's creek below Adelphi. The drill dropped in Wednesday afternoon and with the large tubing still in, the test gauge showed a flowing over two million. The gas men say there is a strong probability when the small casing is in that the well will flow close to three million.

Drillers are working without interruption on the new Salem Karshner location; will be ready in a day

or two to start to drill on the farm, and the derrick is now on the Nels. Delong farm for other hole.—Adelphi Border News

## Mediation and Arbitration

Is there any difference in mediation and arbitration, one of our good friends asks.

Yes, there is a difference, though sometimes the two words are used to express the same act but probably incorrectly. The difference is technical to a great extent, but still a real difference.

As we understand it, arbitration is the result of an agreement reached between two disputants to submit their respective contentions and arguments to an individual or to several individuals with authority to settle, finally, the matters in dispute.

Mediation is rather the act of an outsider, offering his services to two disputants with the purpose of assisting them to adopt some plan by which their controversy may be settled.

Mediation has, as a rule, nothing to do with the subjects over which a disagreement has occurred. It begins with the offer to assist in arriving at some definite plan which will deal with the dispute and settle the contentions.

Mediation may lead to arbitration. The mediator may, ultimately, and as a result of the offer of mediation, have the power to enter into a consideration of the matters in dispute, conferred upon him. In that event he ceases to be a mediator and becomes an arbitrator.

An illustration in point is the present controversy between railroads and employees.

The Federal Board of Mediation and Conciliation offered its services as mediator. That offer was accepted but the Board has been powerless thus far to settle the dispute, because no plan to which both sides will agree has been suggested.

The Board is still a mediator. It will not become an arbitrator until both sides agree to submit their several contentions for final settlement.

The mediator is powerless to enter into the questions in dispute.

## The Flushing Contract

The matter of contracting to clean and flush the newly paved streets of the city has developed some very odd and interesting angles to say the least of it.

It seems now that there are many details in connection with that contract which are demanding the earnest consideration of the official family.

Citizens of prominence are intensely interested and are discussing the matter pro and con with a freedom and understanding which seems a certain guarantee of an equitable contract at the conclusion of the negotiations, if their advice is accepted and considered by the men charged with the responsibility of contracting.

All interested parties, in matters like this, and that includes almost every home owner in the city, are entitled to be heard, to have their wishes respected and their advice, when found to be sound, followed.

The paymaster in private business is an exceedingly important person and there is no reason why he is not just as important in public business as he is in private.

At the meeting of the city council tonight it is likely that the matter will be gone into pretty thoroughly.

## Get Back on the Fence

When James A. White, the Ohio superintendent of the Anti-Saloon League, announced that the League would support Myron T. Herrick for United States Senator because it had the direct personal assurance that Mr. Herrick would support the amendment to the federal constitution prohibiting the liquor traffic, he hurled a high explosive bomb into the camps of the politicians.

The announcement of Mr. White has disturbed both political camps alike. Not only are Mr. Herrick's political friends fearful that it will alienate a considerable support from his standard in the coming campaign, but the camp of Mr. Herrick's opponents seem to be equally as much disturbed, their fear being that the announcement will result in fixing the dry vote to Mr. Herrick.

The attempts of seekers after office to dodge the liquor question often lead to ludicrous results and the present situation is one. Some of Mr. Herrick's political friends are very much averse to a too close alliance with the prohibition element—they want him to keep himself in shape to do what either "successful" politicians have been doing so long—line up both opposing factions under his standard.

Mr. Herrick's opponents would be very much elated to see him lose the support of both the wets and the dries but they are not content to see him gain even one for sure, no matter if by so doing he does lose the other.

The present hub-bub over what Mr. Herrick is claimed to have done is not unusual, but it is none the less interesting, for that reason.

In the meantime it seems that it is up to Mr. Herrick to get back on the fence, where according to all the rules of politics, he should have remained. Then the political managers in both camps will breathe easy once more.

## Poetry For Today

GOOD-BY.

Good-by, proud world! I'm going home;  
 Thou art not my friend, and I'm not thine.  
 Long through thy weary crowds I roam:  
 A river-ark on the ocean brine.  
 Long I've been tossed like the driven foam;  
 But now, proud world! I'm going home.

Good-by to Flattery's fawning face;  
 To Grandeur with his wise grimace  
 To upstart Wealth's averted eye;  
 To supple Office, low and high;  
 To crowded halls, to court and street  
 To frozen hearts and hasting feet;  
 To those who go, and those who come;  
 Good-by, proud world! I'm going home.

I am going to my own hearthstone,  
 Bosomed in yon green hills alone—  
 A secret nook in a pleasant land,  
 Whose groves the frolic fairies planned;  
 Where arches green, the livelong day.  
 Echo the blackbird's roundelay,  
 And vulgar feet have never trod  
 A spot that is sacred to thought and God.

O, when I am safe in my sylvan home,  
 I tread on the pride of Greece and Rome;  
 And when I am stretched beneath the pines,  
 Where the evening star so holy shines,  
 I laugh at the lore and the pride of man,  
 At the sophist schools and the learned clan;  
 For what are they all, in their high conceit,  
 When man in the bush with God may meet?  
 —Emerson.

## Weather Report

### PROPOSAL ON A PINE STRIP.

Girl Artist In Burnt Wood Sends Reply to Lonely Lumberman.  
 Elizabeth, N. J.—Miss Mary Hanna, a burnt wood artist in a novelty plant here, found on a strip of pine a message from a lonely Wisconsin lumberjack reading:

"If a girl finds this board, my name is Peter Peterson, and I want a wife, for I'm lonesome. Address Peter Peterson, General Delivery, Green Bay, Wis."

Miss Hanna admitted a postal showing Broad street at its busiest and carrying a message not discouraging was already on its way to Green Bay.

## Borrow Money

From The Buckeye State Building and Loan Company, Rankin Building, 22 W. Gay Street, Columbus, Ohio.

1. And thus save money
2. For you get better terms
3. And lower interest.
4. Call or write today.
5. It will pay you to do so.
6. Take the train to Columbus
7. And investigate.
8. Assets \$11,400,000.00.
9. Applications promptly looked after.

## FINANCIAL WORRY

(By American Press)

Sidney, O., Aug. 14.—Charles O. Bennett, 28, of Bennett Heights, committed suicide by shooting himself. Financial reverses are said to be responsible for the act. He is survived by a young widow, and a 3-weeks-old baby.

## MINERS ARE BACK

(By American Press)

Athens, Aug. 14.—The 2,500 miners in the Hocking district who struck because operators charged them more for powder were ordered by their officials to return to work pending a settlement. A conference will be held in Columbus to settle the controversy.

## WILSON SIGNS BILL

(By American Press)

Washington, Aug. 14.—President Wilson signed the agricultural appropriation bill carrying approximately \$27,000,000, and the Military Academy appropriation bill, carrying \$1,225,000.

## DEAD AT 104

(By American Press)

Tolais, Aug. 14.—Chief Gwan H-day (Falling Snow), 104 years old, said to have been the oldest Iroquois Indian, died here from infirmities of age.

## BATHER DROWNED

(By American Press)

Hamilton, O., Aug. 14.—John Farinchi, 22, was drowned here when he was seized with cramps while swimming in the Miami river.

## OLD GAME CATCHES FARMER.

Sends Cash to "Widow" Coming to Wed Him—She Doesn't.

Eastford, Conn.—Hear the sad tale Philip Voorhis, bachelor farmer of this quiet town, tells. In a Rochester (N. Y.) newspaper he read an ad. A lonely young widow of that city yearned for a good, true husband. Voorhis answered the ad. and, he avows, got a reply. All that was needed was \$18, and she would hurry to Eastford, meet him, perhaps happily mate with him. As it happened all her available funds were tied up in a stock deal.

Gladly Philip sent the \$18. He met the train the widow named; he awaited several trains. No widow tripped out from one of them nor even fell, stumbled or was thrown out.

At Philip's mournful request the police investigated. They learned that at the two addresses in Rochester the widow gave had lived a man whose wife received numerous letters. The Rochester police say Philip's anticipated mate is known variously as Mrs. Hatch, Mrs. Mack and Mrs. Loevere.

## FOUND AFTER 21 YEARS.

Man Whose Mother Thought He Was Drowned Will Go Home.

Pratt, Kan.—Charles M. Short, who has been mourned as dead by his mother, Mrs. M. A. Annett of St. Joseph, Mo., has been found in this city and is alive and well.

Short tells a peculiar story of a roaming life, which he has at last decided to stop and go home to his mother. About twenty-one years ago Short left his home at Excelsior Springs, Mo., and started out for himself.

He went to San Francisco, where he went on the seas as a sailor. He never wrote his mother, but a word to a cousin in Nebraska gave the information that he was a sailor on a certain boat. This vessel was reported sunk, and there was no report of Short's name in the list of survivors.

His mother then mourned him for dead until recently a flash came over the wire from the cousin in Nebraska that Short had been found.

## CURE FOR INSOMNIA.

Austrian Physician Says It Is Merely a Case of Stretching.

Vienna.—A well known Austrian physician, Dr. Ebstein, claims the discovery of a physical exercise that will cure insomnia. As explained in the Physical and Diet Therapeutics Journal the cure consists of the simple process of grasping with both hands the head board or rail of the bed and of straining upward until the arm and shoulder muscles are fatigued.

Sleeplessness in most cases is caused by irregular blood circulation in the brain, Dr. Ebstein explains. This comes to pass because of the slight difference in altitude between the head and the heart when one is lying down. By raising the arms and straining upward the physician claims the flow of the blood to the head is increased, while at the same time a certain degree of fatigue aids in getting to sleep.

## BAD TEETH MADE HER STEAL.

Maid Says She Took Money to Have Dental Work Done.

St. Louis.—Bad teeth and a desire for a new dress were the reasons given to the police by Anna Fischer, seventeen years old, a maid at the Deaconess hospital, for the theft of \$80 from Miss Ella Loew, a nurse, following the girl's arrest.

"I spent \$62 getting my teeth fixed," the girl told the detectives, "and the rest I spent on a dress. That's all. The money was lying on a dresser when I cleaned the room, and it was too great a temptation, because I had suffered for some time with my teeth."

## REPAIR OWN ROADS

When Macon (Mo.) Motorists Find Hole They Fix It.

CALL AID IF JOB IS TOO BIG.

Farmers and City Residents Unite In Keeping Highways Fit by Doing Work Themselves—Harmony Between the Two Brings Good Results.

Macon, Mo.—Macon county is full of patriotic citizens these days who carry hoes to do emergency work on the roads. The hoe, and sometimes a shovel also, is carried behind the motor car, and whenever the public spirited citizen runs into a mudhole or a place which he thinks he can improve with a little work, he gets out and does it. It is considered bad citizenship here to pass over a mudhole without trying to repair it.

Farmers used to smile when the town men talked about working on the roads, but since they have shown so much interest in the matter the farmers welcome them in the all important road work. Of course one man and one hoe can't do any great amount of work, but the man can start on the job, and if he finds it too big to tackle he can give the emergency signal with his motor horn, and there are plenty of farmers who will respond to his call and help do the job.

Dr. A. B. Miller, former president of the Macon Good Roads club, leader of "The Man With the Hoe" organization, said:

"The biggest thing the town man with the hoe does on the country road is to convince the farmer that he is really in earnest in this matter of good road work. When the farmer is satisfied that his city brother is going with him he will go to the limit. It means that before long we are going to have in this county such a sentiment as will vote almost unanimously for any proposition that tends to insure roads that will be good all year."

"We are approaching the era of hard surface roads. When we get everybody thinking and approving the road campaign it will be an easy matter to get the money necessary to carry on the work. It is no uncommon thing in driving over the country to see a preacher or a merchant on a highway alone tearing up weeds, shoveling dirt in a mudhole or cleaning out a ditch with a shovel. The work of these volunteer workers is bound to result in a perfect highway system. The fundamental is to get the people firmly decided on a thing and then they will go after it."

Scranton, Pa.—Mrs. Ella Anderson, aged sixty-six, and Mrs. Fannie Merrick of Little Marsh, Pa., sisters, embraced each other at a family reunion in Elbridge park recently after not seeing each other for an even half century. They were brought together by a third sister, Mrs. A. C. Shaw of Elmira Heights, N. Y.

# SUIT BROUGHT TO ENJOIN SAFETY-SERVICE DIRECTOR

**Action Filed in Court of Common Pleas Ties Up Further Action on Street Flushing—Grounds Are That Safety-Service Director Acted Illegally, That Bid Not Lowest and Cost Excessive.**

Late Saturday evening City Solicitor Pope Gregg, at the request of R. C. Hunt and on behalf of the city filed suit in the common pleas court to enjoin Safety-Service Director James Hillery from entering into a contract with Thomas Hillery for flushing the paved streets of the city.

The grounds alleged by the plaintiff, The City of Washington, are that the Hillery bid was not the lowest legal bid; was "excessively exorbitant" and that the Safety-Service Director acted without authority in casting two votes to award the bid to Thomas Hillery. Solicitor Gregg is to be assisted in the action by Post & Reid and F. A. Chaffin.

The petition calls attention to the merging of the offices of Safety Director and Service Director, as permitted by law, and the steps leading up to receiving bids for flushing the paved streets. Also that neither bid was submitted to do the work by the front foot of the property bounding on the several streets.

That the bid of Thomas Hillery was several thousand dollars per year higher than the James S. Wilt bid, and that Wilt was ready to proceed with the terms of the specifications.

Petition further states that Safety-Service Director Hillery "regardless of the law or the rights of the plaintiff and the tax payers of said city," pretended to enter into a contract with Thomas Hillery. That under the law the City Auditor is clerk of the Board of Control, but defendant pretended to call a meeting of the Board of Control and pretended to appoint James J. Flynn as clerk at the meeting, "against the protest of the said James Flynn."

The petition then recites that the defendant, claiming two votes, one as Safety Director and one as Service Director, proceeded to vote twice to award contract to Thomas Hillery, while Mayor Oster, the other member, voted against it. That the action was illegal, and that said attempted contract is wholly illegal and void.

Plaintiff states that at no time was a certificate filed by the City Auditor with the Board of Control, showing that the money required for the alleged contract was in the treasury to the credit of the fund from which it is to be drawn. That the bid of Hillery is far in excess of what it is worth to do the work required by the ordinance, and far in excess of what other cities pay.

Plaintiff charges that Safety-Service Director Hillery pretended to contract for period of five years when he could not, if proceedings had been regular, enter into a contract for more than one year. That he attempted also to bind the city to add other streets from time to time during the five years, and that the action was wholly void.

It is further noted that while the terms of the specifications provided

for flushing the streets from April 1 to November 1 each year, that said alleged contract nowhere provides when Thomas Hillery shall begin work, nor for what deduction on time from April 1st to date of contract.

In conclusion the court is asked to declare the petition null and void, and that the Safety-Service director be restrained from doing anything toward carrying out the alleged contract, and permanent injunction.

The suit places the flushing matter in the hands of the court, and council will probably not take further action on the matter at present.

Indications are that no street will be flushed this summer. Meanwhile agitation for the city to buy a flusher and do the work is increasing.

## DEATH CLAIMS J. QUINCY BARGER

The death of Mr. J. Quincy Barger following a recent operation for appendicitis, took place at two o'clock Monday morning at the Fayette Hospital.

The son of Mr. and Mrs. Isaac Barger, of Leesburg, and belonging to one of the prominent and most widely connected families in the county, Mr. Barger's death brings sorrow into a wide circle and the sympathy of many friends goes out to the bereaved family.

Last week Mr. Barger was brought to the hospital in a critical condition which aroused grave anxiety and offered little hope. His vitality and strong physique were in his favor but were powerless to overcome the hold of the disease.

To the last family and friends refused to give up hope and it seemed most untoward that the big hearted, genial man with a word of friendly greeting to everybody, should have been summoned in all his strength at forty-five years of age. He is survived by his widow, parents, one sister, Mrs. K. R. Teachnor, of Leesburg, and one brother, Taylor.

Funeral services will be held from Olive Chapel, Thursday at 1 o'clock, sun time. Interment in Leesburg cemetery.

## MRS. MARY M. SHEPLER DIES SATURDAY NIGHT

Mrs. Mary M. Shepler, widow of the late Bert Shepler of Good Hope, died Saturday midnight after a serious operation for gall stones which had caused gangrene.

The deceased was 31 years of age and a daughter of Mrs. Ben Stewart. She leaves two small daughters and a small son.

Funeral services will be held at the Good Hope M. E. Church, Tuesday afternoon at one o'clock, and interment will be made in the Good Hope cemetery.

## DRAWN \$5 AND COSTS

In Mayor Oster's court, John Culberson was fined \$5 and costs for interfering with an officer, and Harvey Culberson drew a similar fine for being intoxicated. The total amount was \$21.

## UNION SERVICES AND FAREWELL TO REV. A. W. WEST

The union services and Rev. A. W. West's farewell sermon at the First Baptist church, Sunday night, packed the church to overflowing, and many could not find seats.

Before the splendid sermon delivered by the departing pastor, Supt. Wm. McClain, representing the laity of the city, made a short address in which words of deep appreciation of the services of Rev. West, both as pastor and citizen, and how he would be missed, were spoken.

Following Supt. McClain, Rev. Gage, on behalf of the Ministerial Association, paid tribute to the zeal and ability of Rev. West, and stated that the Association would sadly miss him. He also spoke words of highest praise for Rev. West as a citizen and as pastor, and extended hearty well wishes to him in his new field of endeavor.

Responding to the words of appreciation spoken by Supt. McClain and Rev. Gage, Rev. West feelingly expressed his own appreciation of the co-operation of the other pastors, churches and citizens; how he regretted leaving Washington, stating that never before had he lived in such an ideal place, or where his relations with the people in general and his congregation in particular, had been more congenial.

During the course of his remarks, Rev. West stated that he wished to extend to The Herald his deep appreciation of courtesies extended, and that he wished to speak a word of praise for the high standard maintained by The Herald and that it championed the best interests of the city and citizens.

Rev. West then delivered his farewell sermon, in which believing in Jesus Christ was the keynote. After his sermon and a closing number by the union choir, the meeting was dismissed and scores pressed forward to grasp the hand of Rev. West in farewell, and extended to him and his family best wishes for happiness in their new home.

## GET LICENSE IN KENTUCKY COURT

Thomas Sword, giving his age as 22, of this city, and Bertha Wolfe who is alleged to have given her age as 21, were married in Covington, Kentucky, Saturday.

Sword was arrested in this city last spring and held in the county jail several weeks, on a serious charge involving the Wolfe girl, who is said to be 15 years of age. The charge had not been fully disposed of in this city.

100 trimmed hats for fall trade have just arrived. Come and see them, they are handsome and cheap. GLICKSMAN.

## TRACK REMOVED FOR TRAIN SHEDS

In accordance with agreement made with the B. & O., the D. T. & I. has removed several car lengths of siding at a point almost in front of the Union Station, and extending down to Temple street, so the platform may be extended southward to a point near Temple street, and so that additional train sheds may be constructed over the platform for the entire distance.

The work of removing the track and making another switch was completed Monday, and workmen are engaged in building the platform and concrete base for the shed supports.

The C. H. & D. is also making additional track repairs near the station.

## COUNCIL MEETING AT 7:30 TONIGHT

The City Solons meet in adjourned session at 7:30 tonight, and will take up several matters of business, it is expected.

In all probability no action will be taken in connection with the flushing question, the matter now being in the hands of the common pleas court.

Indications are that a large attendance will be a feature of the meeting.

## JOHNSON IS NAMED RURAL MAIL CARRIER

Henry C. Johnson has been appointed carrier of Rural Route No. 1, out of this city, succeeding Wheeler Bay who resigned the position to accept the job of city carrier. Mr. Johnson previously had been with the Western & Southern Insurance Co. and will begin his new work immediately.

## BAND CONCERT ON THURSDAY NIGHT

The Band Concert this week will be given Thursday night of this week instead of Tuesday night, in order that the big crowds from the fair may enjoy the same.

The concert will be given at the usual place, on the Court house lawn, and a cordial invitation is extended to everyone to attend.

## SHOULDER FRACTURED BY UNRULY HORSE

I. S. Morris, of Highland avenue, sustained a fractured shoulder Sunday, when a horse which he was doctoring threw itself against him and crushed him against the side of the barn.

The injured man was removed to the Fayette Hospital where his injuries were given proper attention.

Good Housekeepers Use The Best. That's why they use Red Cross ball blue. At leading grocers, 5 cents.

## BACK WAS BROKEN IN RECENT MISHAP

After careful examination it has been discovered that when Mr. Thomas Wain recently suffered injuries in this city when a load of hay overturned, his back was broken, or rather one of the bones of the spinal column at the hips, was fractured.

The injury will compel the injured man to remain in bed for at least six weeks. The injury is much worse than at first believed.

## WILL DEMONSTRATE ELECTRICAL GOODS

A demonstration which was opened Monday, at the office of the Washington Gas & Electric Company in this city, is expected to be of great interest to all citizens in general, throughout this week.

The company has experts from the factories who demonstrate all household electrical appliances, and giving full information about same. The display and demonstration show the many and varied practical uses for electricity.

## GYPSIES TO BE KEPT ON THE MOVE

Health Officer Byron requests all persons to notify him immediately at the Mayor's Office or his residence, if a band of gypsies appear in this city, so that they may be taken in charge and speedily conducted out without being permitted to stop here.

This precaution is to be taken to prevent them from spreading infantile paralysis, or other disease which they might carry.

## HORSE SHOE WILL BE OPEN TO ALL

Supt. A. W. Duff announces that the horse shoe pitching contest at the Fair, Wednesday, will be open to all comers during the day, and the one making the highest score will be certified over as Fayette champion.

No admission will be charged, and entries may be made throughout the day Wednesday.

## ASKS JUDGMENT

In common pleas court S. A. Adams has filed suit against Margaret Vincent et al., for judgment on a \$75 promissory note, reformation and foreclosure of mortgage on property in Washington. J. F. Adams represents plaintiff.

**All Fuel Base Heater**

During Our Special Sale and Demonstration, Which Takes Place at Our Store

**Aug. 15 to Aug. 18**

One of these handsome Axminster Rugs, 72 inches long and 36 inches wide, will be given ABSOLUTELY FREE by The Gem City Stove Company, of Dayton, Ohio. These rugs are made of only the best material and manufactured by one of the oldest and leading rug makers of this country and would cost you \$6 00 if bought at any store in this county.

The pattern is very handsome and pleasing and the most fastidious housewife will be more than delighted with this gift.

During this sale the manufacturers will have an expert stove man to operate the King Clermont and show you how it gets all the heat out of the fuel. He will literally take this wonderful stove apart and explain its construction. The King Clermont is the most powerful heating stove made and is the only heater that will burn hard coal, soft coal, slack, coke, wood knots or anything burnable with marvelous results, and best of all, the price of the King Clermont is within the reach of everyone.

The fire travels three times as far as it does in the ordinary heating stove before reaching the stove pipe, so that none of the heat is wasted up the chimney as is the case with other stoves.

The Big Warm Air Flue takes in the cool air at the bottom of the stove and discharges it into the room at the top of the stove—thoroughly heated. In this way the King Clermont keeps all the air in the room in constant circulation, heating it over and over. That's why the corners and floors are always warm, even in zero weather.

If you want to save stove money and get the best heating stove made, take advantage of this phenomenal offer. Everybody welcome. Whether you intend to buy a stove or not, come and see the stove in actual operation. Find out about stove construction and when you do get ready you'll be able to select the stove that will save you time, work and fuel cost.

**Don't Forget the Dates,**

**August 15th, 16th, 17th and 18th.**

And remember the rug is only given with stoves purchased during this sale and that any stove contracted for will be delivered any time this fall or winter.

**AL. MELVIN.**

**In Social Circles**

Invitations are now out for the Seventeenth Annual Midsummer Dance, given by the B. P. O. Elks at their club home. A large number of invitations went out to other towns and many young society folk are expected from abroad.

The committee, P. E. Wolford, Frank Michaels and Foster Lane, have been fortunate in securing Parker's four piece orchestra from Columbus, which insures exceptionally fine music.

**HEALTH OFFICER IS STILL WAITING**

So far Mr. and Mrs. Hugh Weir and adopted son, who were alleged to have left Long Island, N. Y., for this city after the child had been in close contact with infantile paralysis, have not arrived in this city, and some doubt has arisen as to whether they had planned such a trip.

Up to three o'clock Monday afternoon nothing had been heard from them, but a communication sent to them on Long Island by Dr. E. C. Hamilton was expected to bring a reply by late Monday or early Tuesday.

Meanwhile the health authorities are meeting each train.

**WASHINGTON CLASS WINS THE CONTEST**

The contest which has been going on for the past eight weeks between the Christian Bible school of this city and Jackson, came to a close Sunday.

The victory was won by the local school, having a number of points in the lead.

A special effort was made to make a high record on the last day and the result showed an attendance of 408 and an offering of \$14.79. A splendid spirit has been manifest in this friendly rivalry and both schools have been greatly benefitted.

**MARRIAGE LICENSES**

William C. Hurler, 20, section hand, and Bertha Lyons, 21.

Buy it in Washington — Your merchant has it.

**CARS DERAILED NEAR UNION STATION**

Two empty freight cars left the rails at the north end of the B. & O.-C. H. & D. transfer, some 75 yards north of the Union Station, Monday, near the noon hour, but were quickly replaced upon the rails without tying up traffic for any length of time.

Failure to throw a switch was responsible for the derailment.

**TAX PAYERS WILL HOLD CONFERENCE**

A meeting of the Tax Payers' Association has been called for this evening at seven o'clock, presumably to take up the flushing and other questions of importance.

Fifty to one hundred persons are expected to attend the meeting.

**WORK BEGINS ON BLUE RUN DITCH**

Work on the large Blue Run county ditch in the eastern part of the county was started a few days ago and is moving forward very nicely.

The ditch in question is an unusually long one and passes through the Humphrey Jones estate.

**OLENTANGY PARK**

Olentangy Park, the big amusement resort at Columbus, Ohio, still stands supreme among the summer parks of the country. Its immense size and its innumerable attractions including practically every form of summer entertainment, place it in the foremost rank, and visitors to the Capital City find it one of the most interesting spots in the city, where they are sure to find a great variety and abundance of entertainment. Many of the amusements are found in no other summer park and there is something suitable for every one.

Cincione's Italian Band gives excellent concerts in the open air and a free motion picture show is given every evening. The Olentangy Stock Company presents high-class plays in the beautiful theater where a fine orchestra furnishes high-class

music. Another splendid orchestra provides music for the dancers in the big dancing pavilion, and there are numerous other attractions to entertain the public.

Big special free attractions will be provided for State Fair Week, for the benefit of out-of-town visitors, most of whom make it a point to visit this wonderful amusement park during their stay in Columbus.

**PROOF UNSOLICITED**

Michigan, S. Dak. 8-7-'16.

Larrimer Laundry Company, Washington C. H., Ohio.

Gentlemen:—I have been thinking of sending my laundry to you, as I was so well suited with your work while in Washington.

I find that you are in the fifth Zone from here, and parcel post rates are 8c on the first pound and 6c on each additional pound.

Three shirts, one dozen collars and three pairs cuffs will weigh about three pounds. I wonder if we could make some arrangement whereby I could still remain a customer of yours, and enjoy the benefits of your excellent work? If you would deem it advisable and have some plan in mind whereby the expense might be made mutual I would be glad to hear from you.

All well here—fine weather; crops badly damaged by continued warm weather. Trusting to hear from you I am,

Sincerely yours,

REV. P. J. HENNESS.

The above is further positive proof of the excellence of Larrimer Service. They have a department

especially to take care of mail orders. Send along your bundles.—Adv.

**CLASSIFIED**

WANTED—Two furnished rooms, central location. Would consider three. Address "Omar" care Herald. 191 t4

WANTED — 10 good plasterers, open shop; state wages wanted. Write Wm. Cranstray, P. O. box 30; Springfield, Ohio. 191 t6

FOR RENT—One half of double house, 4 rooms, on East Temple street. See W. A. Sanders. 191 tf

FOUND — Ring. Owner inquire of Ben Wetzel. 191 t3

**TO MAKE A COLLAR LAST**

No the answer is not make the shirt first. It is this—Always send it to the Larrimer Laundry. No rough edges; no broken folds—and the tie slips. Both phones.

**FIRE FIGHTING**

Protection for the home without damage to carpets or furniture. Demonstration every morning and afternoon on Fair Ground. Don't fail to see this work.

FRANK L. THOMPSON

Representing Inter-State Chemical Company, Detroit, Mich.

**Happiness in the Home**

You're sure to be greeted with happy smiles from wife and little ones if you take home a package of **DELICIOUS CANDY**

We receive weekly shipments of candies and keep them in a refrigerator case. We can, therefore, always guarantee our candy to be fresh, pure and cool. Pure candy is a rich, wholesome food and is safe for the "little folks." Drop in on your way home and get a box. Prices 5c to \$2.00.

# BIG MONEY BILLS UP THIS WEEK

Appropriations of Congress Break All Records.

## WILL ACT ON NAVAL BILL

In Anticipation of Close Vote On the Big Navy Measure Every Absent Representative is Notified to Be in His Seat—Leaders in Both Branches of Congress Said to Be Anxious to Adjourn By Sept. 1.

Washington, Aug. 14.—Senate Democrats, who are devoting many hours of deliberation in caucus, are impressed with the importance of the \$200,000,000 revenue bill now nearing completion by the fact that appropriations of the session now nearing completion have broken all records.

With passage this week of the \$50,000,000 ship purchase bill and probable approval by the house of the senate's gigantic naval bill, the appropriations of the sixty-fourth congress will have exceeded the previous high record by at least \$500,000,000. While exact figures cannot be computed until the gavel has fallen on the last supply bill of the session the aggregate appropriation bill this congress for all purposes will probably approximate \$1,700,000,000, as against \$1,114,000,000 for the sixty-third congress.

Besides regular supply bills, which total as they now stand \$1,387,206,580, congress will have added when the shipping bill is approved more than \$90,000,000 for special purposes. There also have been contract authorizations amounting to about \$297,000,000, all of which would bring the grand aggregate to 1,685,000,000, with the uncertain general deficiency appropriation bill, still in the making, to be added at the end of the session.

Special appropriations include \$20,000,000 for a government nitrate plant, \$6,000,000 for good roads, \$15,000,000 for rural credits and \$50,100,000 for the government shipping project. General supply bills that enter into the session's total are as follows:

Postoffice, \$322,206,579; navy (yet to be approved), \$315,286,843; army \$267,597,090; pensions, \$158,060,000; sundry civil, \$128,396,445; rivers and harbors, \$42,886,085; legislative, executive and judicial, \$37,025,690; army and navy and other urgent deficiencies, \$301,112,075; agriculture, \$27,000,000; fortifications, \$25,748,050; District of Columbia, (yet to be approved), about \$13,000,000; Indian affairs, \$10,967,640; diplomatic and consular, \$5,355,096; and military academy, 1,225,043.

Final action on the long disputed naval bill is expected before the week ends. With President Wilson and a majority of the party leaders urgently supporting the senate's naval building and personnel increases, it is believed the house will agree to them after the advocates of a small navy have made their last fight. In anticipation of a close vote, every absent representative was notified more than a week ago of the approaching contest, which will mark the climax of the national defense campaign. Two days may be required to dispose of this issue in the house.

Appropriations for preparedness alone will aggregate approximately \$640,000,000, unless unexpected developments should force a reduction in the naval program.

While the house this week is bringing defense legislation to a close, the senate will pass the ship bill, workmen's compensation bill and conference reports preparatory for the revenue bill, on which a stubborn political assault will be waged by the Republicans. When the amended revenue bill gets through conference, it is expected congress will be ready to adjourn. Leaders of both parties are hoping adjournment will come by Sept. 1.

Good Housekeepers Use The Best. That's why they use Red Cross ball blue. At leading grocers, 5 cents.

## HINDERBURG, COMMANDING 2,500,000 MEN AND GENERALS ON HIS BATTLE FRONTS

EASTERN BATTLE FRONT AND TEUTON COMMANDING GENERALS.—TOP TO BOTTOM, VON HINDENBURG, LEOPOLD OF BAVARIA, VON LINSINGEN, VON KOEVESS

Field Marshal von Hindenburg, commander of the armies opposing the Russians, now leads the greatest forces ever commanded by one man. Their number is estimated at 2,500,000. Von Hindenburg in person leads in the most northerly sector, near Riga, in Russia, and the other sectors as shown on the map are commanded by various German and Austro-Hungarian generals. Of these men Von Linsingen is the best known, but the others have

been named frequently in the war dispatches. Of these generals Von Hindenburg, Prince Leopold of Bavaria and Von Linsingen are Germans; Bothmer, Pflanzer-Baltin, Tersztjanszky, Boehm-Ermolli and Koevess are Austro-Hungarians.

## GUARDS PLEASED OVER PROSPECTS

Another Rumor That Troops Will Soon Go to Border.

Columbus, Aug. 14.—Ohio national guardsmen evinced no disappointment when they failed to get orders to move to the border, which were reported as having been sent from Washington. They have quit expecting things and quit making serious guesses as to when they may get to leave camp. They have reached a stoical, indifferent frame of mind and are prepared for anything, no matter what.

Information, said to have come in a roundabout way through a civilian from General Barry, commander of the central department, is to the effect that all the troops will be out of camp by Saturday. There have been so many reports of this kind, however, that officers refuse to place credence in any of them.

Further equipment continues to arrive daily. It is said that enough equipment of all kinds except shoes is now at camp to fit out all the soldiers.

Captain Cromwell Stacy, assistant inspector general of the United States army, is making rigid inspection of all the regiments. The inspection of a regiment usually lasts a day. It includes everything from company, battalion and regimental drills, in close and open formation, to an examination of the company records.

A report at the camps is that most of the Ohio men, if not all, will be transported in tourists' cars. More than 200 such cars are said to have been assembled here for the purpose.

## AWFUL TOLL

(By American Press)  
Johnstown, Pa., Aug. 14.—Twenty-five persons were killed and 63 injured in a head-on collision between two crowded trolley cars on the line of the Southern Cambria Traction company, between Echo and Brookvale seven miles from here. Fourteen persons were instantly killed, while eleven others died after being removed from the wreckage. Several more are in a critical condition and will probably die. The cause of the accident has not been determined. A majority of the victims were members of the Dishong and Ribblett families enroute to a reunion at Woodlawn park.

## FARM LOAN MEN GIVE ITINERARY

Hearing Will Be Public and Farmers Invited.

Washington, Aug. 14.—Dates and places were announced here for the first 13 hearings to be held by the farm loan board for compiling information on which it will divide the country into 12 farm loan districts under the new rural credits law and determine the location of a federal loan bank in each. The first will be at Augusta, Me., a week from today, and will be followed by a trip across the continent to Spokane, where the first leg of the board's tour will be completed Sept. 4.

The itinerary, so far as worked out, with the dates of hearings, follows: Augusta, Me., Aug. 21; Concord, N. H., Aug. 22; Hartford, Conn., Aug. 23; Springfield, Mass., Aug. 23; Utica, N. Y., Aug. 24; Lansing, Mich., Aug. 25; Madison, Wis., Aug. 26; Des Moines, Ia., Aug. 28; Sioux Falls, S. D., Aug. 30; St. Paul, Minn., Aug. 31; Fargo, N. D., Sept. 1; Helena, Mont., Sept. 2; and Spokane, Wash., Sept. 4.

The hearings will be public and farmers' organizations are invited to appear before the board and submit all the information which they think will assist the board in solving the important problem of determining the boundaries of the districts and locating the federal land banks.

Buy it in Washington — Your merchant has it.

# BRITISH CAPTURE TRENCHES

London Reports Big Gain In Somme Region.

## ITALIANS STILL ADVANCING

Constantinople Reports British Compelled to Retreat and Suffer Heavy Losses in Battle East of Suez Canal. Berlin Claims Russians Thrown Back Several Places By Counter Attacks in Galicia.

London, Aug. 14.—Hard fighting in the Somme region of France, in Galicia and in the Italian theater, with further gains for the entente allies in all three regions, marked the latest operations of the war in Europe.

Northwest of Pozieres, north of the Somme, the British made an advance of from 300 to 400 yards over a front of nearly a mile against the Germans, and also captured trenches on the plateau northwest of Bazentin-le-Petit, while the French southeast of Baurempas gained a further foothold on the slopes of Hill No. 109.

Between Thiepval and the Somme according to Berlin, assaults by the entente allies broke down with heavy casualties to the attackers. The fighting near Hem and Maurepas continues, the men repeatedly coming to grips in hand-to-hand encounters.

Mariampol, in Galicia, seven miles southeast of Hallez, the town of Podglacy and several villages along the upper Sereth river, have fallen into the hands of the Russians. All along this front, even in the Carpathian region, Petrograd reports that the Russians are continuing their advance against the Austro-Germans.

On the Bystritsa sector and near Monasterzyska, however, Berlin says the Russians have been thrown back at several places by the counter attacks of the Teutonic allies.

The Duke of Aosta is keeping up his strong offensive against the Austrians in the Isonzo region, having driven them from fortified positions in the Monfalcone and Gorizia sectors and taken prisoner more than 2,000 additional men.

Constantinople reports that the Turks east of the Suez canal have turned against the British and compelled them to retreat with heavy losses. The London war office, however, disputes this statement, asserting that the British cavalry is still in pursuit of the Turkish rear guard which Saturday had been driven back to a position east of Bir-el-Manca.

After a long period of inactivity, the British along the Euphrates, in Mesopotamia, attempted an advance against the Turks, but retreated after two hours' fighting. Further advances for

the Turks against the Russians on the Persian front and in Turkish Armenia also are claimed by Constantinople.

## HORSEMAN HURT

(By American Press)  
Youngstown, O., Aug. 14.—Two men were injured, one probably fatally, and scores of passengers were badly shaken up when an Erie passenger train was derailed at Girard by spreading rails. Francis Belmont of Philadelphia, had his chest crushed and was injured internally. Charles Karr of Alpena, Mich., also was seriously injured. Both men were in charge of race horses going from Cranwood to Columbus.

## SETTLED

(By American Press)  
Cleveland, Aug. 14.—The strike of the milk wagon drivers ended when the tentative proposal of Mayor Harry L. Davis, State Mediators George F. Miles and C. H. Mayhugh, representatives of the union and officers of the milk companies were accepted. James Thwing, president of the drivers' union, who signed the agreement jointly with officers of the milk concerns, declared it a signal victory for organized labor.

By the terms of the agreement the men will receive advances amounting to \$10 a month and the union is recognized. Employers succeeded in obtaining an abrogation of the closed shop clause, but they do bind themselves to make no terms with individual employees that are at variance with the terms the union has agreed to accept.

## CLOUD BURST'S VICTIM

(By American Press)  
Ironton, O., Aug. 14.—After a cloudburst at the head of Sandy Fork the flood of water that swept down the narrow stream carried George Wickline, twenty-five, a prominent young Lawrence county farmer, of Lecta, to his death. Four companions escaped after a battle with the raging water. Wickline's body has not been recovered.

## 13 MINERS KILLED

(By American Press)  
London, Aug. 13.—Thirteen miners were killed by an explosion in the Ashington colliery near Blyth. The cause of the explosion is not known.

## NOW, THEN!

(By American Press)  
Chicago, Aug. 14.—Only in the possible piercing of the Dardanelles lies hope of materially lower prices for wheat, according to J. P. Griffin, president of the Chicago Board of Trade. This, he said, would throw open to the consuming nations the three years' surplus grain stored in Russia. Mr. Griffin cited the government figures on wheat productions to show that the principal cause of the recent jump in prices was due to insufficient production. Only 654,000,000 bushels being produced this year against 1,012,000,000 in 1915.

You can get it in Washington.

# Gloria Romance

by MR. and MRS. RUPERT HUGHES

Novelized From the Motion Picture Play of the Same Name by George Kleine

Copyright, 1916, by Adelaide M. Hughes

Continued From Yesterday's Herald

SYNOPSIS.

Pierpont Stafford, banker and railroad magnate, with his sixteen-year-old daughter, Gloria, is wintering at Palm Beach. Gloria is a vivacious, but willful young lady who chafes under the restraining hand of a governess from whom she repeatedly escapes. Her childish capers cause young Doctor Royce to fall in love with her. She steals from her room at night and in an auto plunges into the surf where she leaves the car. Becoming lost in the everglades she falls into the hands of the Seminole Indians. She is rescued and returned to her father who had offered a reward for her return.

Mr. Freneau's answer was blurred. Pierpont studied the two young people. He had his own opinion of Freneau. It was formed on brief acquaintance, but he was a judge of men.

"You love each other, eh? Desperately, too? Well, well! Now, look here," he said, after a quick balancing of his mind, "of course you both know that Gloria is too young for marriage. She must prepare herself for the solemn responsibilities of life and graduate at a good finishing school. Now, if you will wait, and not see each other or write to each other, till then, and if you still love each other then, I will not oppose your marriage. I'll do all I can to make you happy. Is it a bargain?"

Freneau had not the courage to refuse the demand in the cold eyes of the millionaire. To be accepted as his son-in-law at any time was a marvelous promise. He hastened to give his own in exchange for it.

When he had promised there was nothing left for Gloria to do but promise also.

"For five years, then," said Pierpont grimly, "you promise not to bother each other or speak or write—for five years."

"I promise!" said Freneau quickly. "From tomorrow," said Gloria with equal grimness.

"The train leaves very shortly," said Pierpont, and led her in to superintending the packing.

Freneau walked away in a daze. Yesterday he was a broker's clerk. Today he was the son-in-law-elect of one of the country's wealthiest men. What were five years to him?

Five years sounded unimportant to Gloria, too, at the moment. She would love that young man forever.

Five years is a long time, and many things can happen in the eighteen hundred odd days and nights.

Freneau hated Royce, for we rarely like the people whose property we have stolen.

Gloria was gone and Lois was gone, but an attractive youth like Freneau was not left alone in such multitudes of women as gather at Palm Beach with no more serious purpose than escaping the cold drafts of the North and the torments of boredom in the South.

He spent so much time gathering the applause from fair women that when the season closed at Palm Beach his firm gave him his full liberty. He had done nothing, they wrote, to encourage them to pay him further salary. He had to go next to places where his fame had not reached—where he had only his winning personality as capital. He found men rather hard to impress, but there was always some woman foolish enough to believe in his beautiful eyes.

Some of them were rich and some of them were as poor as poor Nell

# STRIKE CHIEFS IN CAPITAL

President Wilson Seeks to Avert Walkout.

## CONFEREES FAIL TO AGREE

Chairman Knapp Issues Statement When Negotiations of Employees and Railroad Managers Break Off. Chief Executive Says Tie-Up of Railroads Would Be a Calamity at the Present Time.

Washington, Aug. 14.—Both parties to the railway controversy arrived in Washington early today at the summons of President Wilson. The controversy was laid before the president at his invitation, after the workers had flatly refused any form of arbitration.

The final break came after the men had been in secret session in New York nearly six hours. Reports differ as to the reason for the failure of the negotiations, in view of a cheerful outlook of the night before. The men assert they refused arbitration because the railroads insisted on arbitrating their "contingent proposition." The mediators, however, declared the men rejected their proposition, contending that they would not arbitrate even if the railroads waived the contingent proposition.

The statement of the mediators, issued by Judge Martin A. Knapp, chairman of the board, just before their departure for Washington from New York is as follows:

"After repeated efforts to bring about an arbitration of the pending controversy between the railroads and their employees in train and yard service the United States board of mediation and conciliation was advised by the representatives of the employees that they would not submit the matters in dispute to arbitration in any form.

"The employees further stated to the board that they would not arbitrate their own demands even if the contingent demands of the railroads were withdrawn and also declined to suggest any other plan or method for a peaceful settlement of the controversy.

"They were informed that their decision would be at once made known to President Wilson and also that the president claimed the right to a personal interview with both parties before any drastic action was taken. This request, of course, was granted, and a large delegation of employees with a number of railroad managers will be in Washington Monday for a conference with the president."

President Wilson, in a communication addressed to the brotherhoods and the railroad managers, pointed out that such a paralysis of business as would follow a general railroad strike would be a catastrophe at any time, but would be nothing short of a disaster under present conditions. On this ground the president based his request for a conference with representatives of both factions before a strike order is issued by the leaders of the men.

That the president may succeed in bringing the opposing factions to an agreement as to the merits of arbitration was indicated in Mr. Garrettson's response to a question on that point.

"I have no comment to make on what the president may succeed in accomplishing," he said. "Our determination to reject arbitration was due to the attitude of the railroads. Indifference always breeds resistance. And the railroads have been indifferent to the demands of the men. They have made an honest effort to effect a settlement. They have offered to mediate anything in return. Had they shown a disposition to meet us half way the situation might now be different."

# OHIO NEWS

(By American Press)

Old Indian Dead. Sidney, O., Aug. 14.—Raymond Murray, 22, was drowned in the Loramie reservoir here when he took what was intended to be the last dip before breaking camp after a two weeks' outing.

Cleveland Girl Murdered. Cleveland, Aug. 14.—Anna Zilindra, seventeen, was shot five times and instantly killed at the corner of St. Clair avenue and Fifty-second street. Police say that a disappointed suitor fired the shots.

Dies of Injuries. Dayton, Aug. 14.—D. L. Foulkes, 23, who was injured by an explosion of munitions at the Recording and Computing Machines factory died. A piece of metal which penetrated his abdomen caused death.

Chinamen to Vote. Dayton, Aug. 14.—Twelve Chinamen of this city have qualified for the exercise of their suffrage and will vote they say, at the November election. In all there are thirty-three native born Chinamen in this section of the state.

Religious Societies Benefited. Delaware, O., Aug. 14.—Several thousand dollars were left to the American Bible Society and American Tract Society, and the Moody Institute of Massachusetts, by the provisions of the will of the late William Bevan, filed here.

Deny Demands of Machinists. Dayton, Aug. 14.—Sixty of the largest machine and tool-making factories in the city have entered into written agreement not to reduce the working hours in their shops and not to grant any of the demands made by the machinists' union.

Watchman's Body Found. Toledo, O., Aug. 14.—The charred body of Harry Minor, 53, night watchman of this city, was found in the ruins of a large stock barn which burned early in the day. Fifty horses were destroyed in the fire and the loss is estimated at \$50,000.

Boiler Inspectors to Convene. Columbus, Aug. 14.—Inspectors of steam boilers, who work for states and cities and for corporations will gather in Columbus next Thursday and Friday for the first Ohio Boiler Inspectors' convention. The purpose of the convention to be held here is to secure uniformity of standards in inspection among all of the state and private inspectors.

Hoboes Get Their Meals. Marion, O., Aug. 14.—United States army recruiting officer here is wondering how the federal authorities are going to stop the latest form of petty grafting inaugurated by hoboes. Three drifted into his office and signified their intention of joining the army. After receiving their board and lodging for three days, while waiting to pass the physical examination, they announced they had changed their minds and departed.

Was Returning From Camp Willis. Circleville, Aug. 14.—Mrs. William Reed, forty-five, of Whisler, was instantly killed near Hayesville, three miles south of here, when the buggy in which she was riding with her husband and daughter, Mrs. Clayton Wogan, was struck by an automobile driven by John Penn, a farmer. Her neck was broken. Mrs. Reed was on her way home from Columbus, where she had spent the day with their son, James Reed, member of Company F, Fourth Regiment, at Upper Arlington. Her husband and daughter escaped with bruises.

# PENNSYLS MERGER

(By American Press)

Philadelphia, Aug. 14.—The merger of the Pennsylvania lines west of Pittsburgh into one corporation to be known as the Pittsburgh, Cincinnati and St. Louis Railroad company has been officially confirmed.

# FOUR DROWNED

(By American Press)

Detroit, Aug. 14.—Four persons were drowned in the Detroit river this afternoon. Three of them met death together at a bathing beach on Belle Isle. The fourth fell out of a rowboat at the foot of Chene street, on the East Side.

# FATALITY NOTICE!

(By American Press)

Mt. Vernon, Aug. 14.—Robert Walton, 17-year-old son of Professor L. B. Walton of Kenyon college, succumbed to infantile paralysis at the Walton home in Gambier. Burial was arranged immediately and a private funeral was held, interment being made in the Kenyon cemetery. The epidemic victim, who is a senior in the Mt. Vernon high school, was taken ill Wednesday evening.

The undersigned will close their places of business every Wednesday afternoon throughout the month of August:

BY COIN FLIP  
(By American Press)

Batavia, O., Aug. 14.—The official county of the ballots cast in Clermont county at the last primary discloses the fact that Charles Woodmansee and W. E. Patton were tied for the Democratic nomination for probate judge. Both men agreed to abide by the result of the flipping of a coin and Patton won the nomination.

BIG DAM BREAKS  
(By American Press)

Asheville, N. C., Aug. 14.—The great dam at Lake Toxaway, weakened by the recent floods, broke, sending a great wall of water down the valley toward Western South Carolina. No lives are reported lost and warnings are believed to have enabled most persons in the path of the flood to reach safety.

# HILLSBORO WINS FINE BALL GAME

Locals Lose Final Contest to Visitors From Over in Highland—Tie Up the Score After Locals Seemed to Have Game on Ice.

VAN ZANT'S SUPERB WORK IN THE PITCHER'S BOX

Next Sunday the Wilmington Team Comes for the First of the Big Series Between the Two Teams.

A good sized crowd saw the deciding game of the three game series between Hillsboro and Washington go to the visitors by the score of seven to five.

It was a tough one to lose, but the visitors were entitled to the victory and the Athletics are game enough to concede the good playing of the visitors.

Reno, for the locals did not pitch in his usual effective style, the visitors finding him for eleven hits, which, with the generosity of Reno, made 15 by the base on ball route.

Washington took the lead in the third, scoring three runs. Towell scored all the way on a single between first and second which went through the right fielder and was fielded in badly, the ball landing in the crowd while Towell crossed the rubber.

The next two men fanned. Lewis singled, Corwin hit for three cushions scoring Lewis and was himself scored when he crossed the rubber on a passed ball by Johnson.

Washington scored in the fifth. A. Grandle first up was plunked by the pitcher. Reno singled; Grandle going to third. Lewis fanned. Corwin grounded to second for an out at first; Grandle scoring on the play. Adams flied out to center.

Hillsboro tallied in the sixth. Matthews singled. Doyle tripled to deep right scoring Matthews. Vance fanned. Rogers flied to Lewis. Morehead doubled, scoring Doyle. Cordes flied to second for the last out.

Washington's last run arrived in the sixth. H. Grandle took first on an error, to second on an overthrow to catch him off first, to third on Towell's out at first and scored on a passed ball.

Then came the ninth.

Morehead, first up, hit to Corwin, out at first. Cordes perished in the same way. Gunther knocked an ugly bounding grounder to Lewis who fielded it to Grandle who dropped the ball. Fisher singled; Gunther going to second. Van Zant singled scoring Gunther and Fisher. Van Zant taking second.

Matthews singled, scoring Van Zant and tying up the game.

Doyle was passed and Vance fanned, ending the agony.

Then the blow-off in the eleventh. Gunther again led off. This time he poled a double. Fisher was given life at first by Towell's error. Van Zant sacrificed advancing both runners.

Matthews hit to second for an out at first, but neither runner could score on the fast play.

Doyle then strode to the plate and Reno was instructed to pass him and was following instructions.

## THE OLD RELIABLE STILL IN THE LEAD

25 pounds best granulated sugar still \$1.95. Potatoes 35c per peck. Monitor flour \$1.00 per 25 pound sack. Defender 95c per sack. Gwinn Jefferson \$1.10 per sack. Fayette county honey, very fine, 20c per pound. Celery, Cantaloupes, Oranges. Bananas. Lemons. Cream of Rice, the new breakfast food, the finest on the market.

Killo, kills all bad odors. Drives away the mosquitoes. Don't do without it as it is good for so many things. 15c and 25c per box. J. W. DUFFEE & CO. The Old Reliable Cash Grocers. New Phone 7771—Bell 77.

Two bad balls found safety in Towell's big mit but the third Doyle reached over and gathered on the end of his trusty ash, polling it over the first baseman's head for a clean three base hit down the right foul line.

Vance then fanned but the beans were spilled.

Washington was helpless in their half. Noon, Jones and Towell went out in order.

The Hillsboro catcher, Johnson, had his hand split in the 4th, and Matthews came in from center and put on the windpad, catching a good game.

Van Zant pitched a classy game, tightening up after the fourth and holding the locals the balance of the road, to 3 little bingles.

The score:

Wash. C. H.	AB	R	H	PO	A	E
Lewis, 3b	5	1	2	1	1	0

W.	0	0	3	0	1	1	0	0	0	—5

Struck out by Reno, 10; by Van Zant, 7; base on balls by Reno, 4; hit by Reno, 1; by Van Zant, 1.

Passed ball—Matthews, 2; Johnson, 1.

Double play—Corwin to Grandle; Lewis to Jones to Grandle.

Two base hits—Morehead, Grandle.

Three base hits—Doyle, 2; Corwin.

# HIGH PRICES AFTER STRIKE

Cleveland May Be Compelled to Pay More For Milk.

By Associated Press Dispatch. Cleveland, O., August 14.—Cleveland's milk wagon drivers' strike, settled Sunday, is expected to reflect itself in higher milk prices to consumers.

Officials of the two largest dairy companies, whose drivers enforced a demand for higher wages by striking, have threatened to increase the price one cent on both quarts and pints, it was reported today.

Normal service was resumed today, practically all drivers having returned to work.

# TYPHOID FEVER IN FLOOD WAKE

Immense Quantities of Serum Ordered to Fight Fever in the Flood Swept Zone.

By Associated Press Dispatch. Huntington, W. Va., August 14.—Six Thousand and five hundred anti-typhoid serum treatments have been ordered by state authorities for use in inoculating persons living in the Kanawha Valley who were exposed to the disease since the cloudburst which swept the valley Wednesday and Thursday.

Members of the West Virginia National Guard are still encamped at Ronda, where flood relief headquarters have been established.

# DUE WARNING SAVED LIFE

By Associated Press Dispatch.

Asheville, N. C., August 14.—

Timely warning sent broadcast through endangered territory is thought to have prevented any loss of life as a result of the breaking of the large dam here, in which 540 acres of land were inundated to an average depth of 30 feet. However, great losses on crops are reported.

The torrent was weakened by every outlet from the valley and by the time it reached Anderson, S. C., this morning, had spent much of its force.

The flood passed through an almost uninhabited portion of Transylvania county, which explains the fact that no loss of life resulted.

# SCOTLAND WILL MAKE A CHANGE

Committee Recommends Abolition of Liquor Dealing Grocers and That Hotels and Inns Be Run By State.

(Associated Press Cable.)

London, August 14.—The committee appointed sometime ago to advise the Government in regard to proposals for purchase by the State of the licensed liquor trade of Scotland has recommended that trade in liquor by licensed grocers should be abolished, and that hotels and inns which depend mainly on this traffic should be taken over by the State.

The committee reported against the purchase of distilleries.

# POSTPONED

By Associated Press Dispatch.

Columbus, O., August 14.—By agreement of the parties concerned the hearing before the Public Utilities Commission of the Eastern Ohio coal rates cases was postponed today from September 5 to September 12.

# AMONG THE CONTRABAND

(Associated Press Cable.)

London, August 14.—The most interesting museum in London is not open to the general public. It is the museum of the censor and contains a collection of most curious exhibits which represent attempts to evade the British naval blockade since the outbreak of the war.

Most of these exhibits come from the United States where thousands of people of German extraction have despatched all sorts of useful things to friends and relatives in the Fatherland. Many of the exhibits indicate the pains and ingenuity of the senders; in some instances they made a pound of lard look like a copy of the morning paper or a packet of pure rubber like a bundle of narcissus bulbs.

A side of bacon weighing forty pounds is mute evidence of the attempt made by a St. Louis man to assuage the hunger of some friends or relatives in what was undoubtedly his former home town. In his anxiety to get the bacon to Germany this man sent it by first class mail and attached stamps to the bacon itself to the value of nearly \$5.

There are many other instances in which the stamps on the packages by far exceed the value of the contents. Many parcels have duplicate covers. They are addressed to someone in a neutral country, whose business it is to pull off one cover and reposit them to the German or Austrian address revealed below.

An enterprising Buffalo man sent a large number of letters each containing a sheet of pure rubber. Rubber has been a scarce commodity in Germany for more than a year and efforts have repeatedly been made to get through the blockade all sorts of these articles. Once in Germany the rubber would be sent to a central depot where it ultimately would have emerged as rubber tires.

This censor's museum contains huge bundles of newspapers or what appeared at first glance to be newspapers. Closer inspection reveals that the neatly rolled ends are but cleverly made plugs of paper and wood. When one of these plugs is pulled out there is uncovered a long sausage-shaped bag of calico containing anything from sliced ham to Para rubber, from rice to tobacco.

Two iron crosses are not the least interesting of the exhibits. They are the original article and were being sent from Germany to a child in the United States. The consignor was maker of the crosses, the head of the firm that supplies them to the German government, and in an accompanying letter he suggests that the recipients wear them.

Shoes are the most numerous of the exhibits and most of these come from the United States.

In several cases they are wrapped carefully in a piece of best sole leather.

All these things, neatly laid out and ticketed, are merely samples of large contraband cargoes that have found their way into the hands of the British authorities. They are not confiscated but will some day get to their proper destination, only at present the British government has "interned" them.

# Roadless Russia.

It seems almost inconceivable to the foreign visitor who has ever left the beaten track of the railways in Russia how a great empire can have subsisted so long and so successfully without even a pretense at roads. The secret lies in the fact that for five or six months in the year nature herself provides roads over the greater part of Russia—admirable, smooth, glassy roadways over hard worn snow. The traffic is further cheapened over these roads by the substitution of a sledge runner for the wheel and axle. This brings the cost of land carriage as near the cheapness of water borne freight as possible, and it is the principal reason why Russia in the twentieth century is still a roadless land.

# TOBACCO STEMS USED

Tobacco stems, frequently used in ready-mixed fertilizers as carriers of ammonia and potash, are not as effective as the same compounds in unmixed fertilizers, and are worth no more than treated stall manure, according to C. E. Thorne, director of the Ohio Experiment Station. Tobacco stems carry about 2½ percent ammonia and 6 percent potash.

Director Thorne has found that this amount of ammonia in nitrate of soda or sulphate of ammonia, and a similar amount of potash in muriate or sulphate of potash bring greater crop returns than in low-grade, ready-mixed fertilizers.

Experiments at the Station show that these elements in manure protected from rains and treated with acid phosphate are probably equal, pound for pound, to those in tobacco stems. The elements can usually be bought at a much lower cost in manure than in tobacco stems.

# BULLET SHIELDS PROVE MENACE

(Associated Press Cable.)

Vienna, Aug. 14.—The Austrian authorities have been making an apparently ineffectual fight against an alleged "bullet protector" that is widely sold, but which it is claimed is dangerous rather than helpful in any way.

The "protector" is nothing but a curved piece of metal that is hung about the neck inside the tunic, and which, its producers claim, will stop or lessen the force of a bullet fired at long range. In practice, the authorities claim, it is merely a menace because a bullet at short range—as most of them are—will not only pierce it easily but flatten out in the process and often carry bits of the metal on into the body.

Some half a dozen dealers in the "protector" were haled before the courts recently on the charge of endangering public safety. Each claimed that the metal shield will stop bullets fired at a thousand yards or more. They established satisfactorily that they never had sold the shields under any other pretense, and therefore could not be held for fraud.

# PRESIDENT WILSON CONFERS WITH LABOR LEADERS HIS KNOWLEDGE OF SITUATION MAY AVERT A STRIKE

The Brotherhood Chiefs Express Amazement at President Wilson's Familiarity With Situation and His Grasp of the Whole Contention.

Later Confers With Railroad Managers.

The Presidents Clear Understanding of the Big Problem Raises the Hope That Trouble May Yet Be Avoided.

Associated Press Dispatch.

WASHINGTON, AUGUST 14.—

PROSPECTS FOR AVERTING A

NATION WIDE RAILWAY STRIKE

AT LEAST FOR THE FORMU-

LATION OF SOME TENTATIVE

PROGRAM WHICH WILL BE THE

GROUNDWORK FOR FURTHER

NEGOTIATION, BRIGHTENED UP

TODAY AFTER PRESIDENT WIL-

SON HAD CONFERRED WITH 35

CHIEFS OF THE GREAT BROTHER-

HOODS.

After the conference, the brother-

hood men declared the President's

grasp of the situation and the posi-

tion of the men might result in an

understanding being reached, and

others in touch with the conference

would the representatives of the men

showed a disposition to co-operate to

avoid a strike.

After hearing the leaders of the

two hours, the President sent

for the managers for a conference

at 2 o'clock this afternoon.

How far whatever progress made

at the conference with the men can

be toward averting a break cannot

be determined until after the Pres-

ident confers with the managers'

committee.

THE PRESIDENT, ACCORDING

TO THOSE WHO ATTENDED THE

CONFERENCE, SHOWED A FAM-

ILIARITY WITH THE SITUATION

THAT SURPRISED THE MEN.

"THE PRESIDENT WAS MOST

EMPATHETIC," SAID ONE OF

THE BROTHERHOOD LEADERS,

AND HIS SURPRISING KNOWL-

EDGE OF THE SITUATION AND

OF OUR POSITION MAY RESULT

IN AN UNDERSTANDING BEING

REACHED."

The President, it was said, sub-

mitted no counter position to the

men, but he held out hope for an

adjustment by legislation, if neces-

Judge Chambers, of the Mediation Board said:

"The ice appears to be melting a little."

He said he was more hopeful that a strike would be averted than when he came from New York this morning.

By Associated Press Dispatch.

New York, August 14.—If President Wilson fails to persuade the railroad men and their employers to settle their differences, and a general strike is called, it will be directed from headquarters in this city. This announcement was made today.

At brotherhood headquarters, it was said that all preparations had been made for putting into effect a strike that would stop every train—passenger and freight—on the 225 railroad systems of the United States.

Authorities have declared that while the national labor laws gave the President no right to interfere officially, the broad police powers vested in him gave him authority to put soldiers on the trains and even to declare martial law if he believed the peril of the situation called for such drastic measures.

Attention was called to the last national railroad strike, in 1894, when President Cleveland used the Regular Army to guard locomotives and cars.

The tension in business circles here today showed a realization of the acute danger of a national calamity.

An aggregate of financial losses running perhaps into hundreds of millions, labor idleness and food privation were some of the possibilities which a strike presented.

## CONFUSION

The suspension of the country's export, the congestion of imports at coast cities, the stranding of hundreds of thousands of travelers and summer resort visitors far from their homes—these are other possibilities which the strike situation presents, to say nothing of its effect on the railroads themselves and their employees.

## BORROWING BABES FOR ICE CARDS

Latest Plan to Get Ice in Toledo Is Unique and Proves Effective.

By Associated Press Dispatch. Toledo, O., August 14.—Loan-

ing babies to be used as ice cards

is the latest invention of Toledo

housewives during the ice famine.

The plan worked to the satisfac-

tion of at least three families, but

when the same baby was loaned to

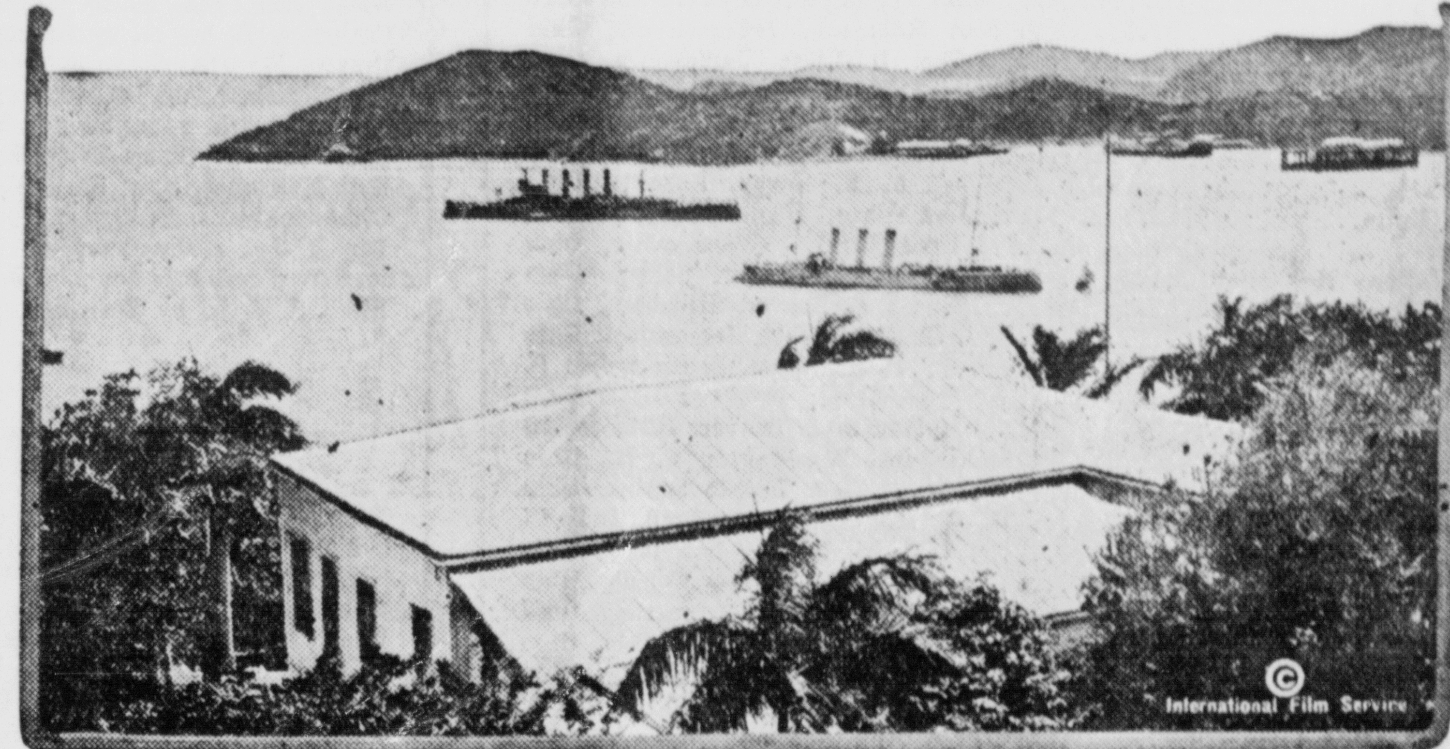

a fourth woman, and duly exhibited

when the ice man appeared, the lat-

ter became suspicious.

It developed that one baby had

## CAN WE BUY THIS HARBOR FROM DENMARK?

This is a view of the excellent harbor of Charlotte Amalie, St. Thomas, in the Danish West Indies, which is and the United States wishes to purchase from Denmark. In that country a campaign to prevent the deal has been started and may be successful.

## ITALIAN GUNS CREDITED WITH TAKING OF GORIZIA

ITALIAN ARTILLERYMEN ON WAY TO FRONT

## IMPROVEMENT IN EPIDEMIC

Number of New Cases Falls Below Hundred Mark.

New York, August 14.—The epi-

demic of infantile paralysis took a

turn for the better today.

The number of new cases report-

ed went under the hundred mark

for the first time in several weeks.

During the 24 hours ending at

10 a. m., the plague killed 31 chil-

dren, and 95 new cases were re-

ported.

This compares favorably with

yesterday's figures, when there

## RUSSIAN DRIVE IS PRESSING LINE BACK

Marvelous Advances Being Made By Czar's Forces in Galicia.

(Associated Press Cable.)

LONDON, AUGUST 14.—THE RUSSIAN DRIVE IN GALICIA IS PUSHING THE AUSTRO-GERMAN ARMIES BACKWARD TOWARD LEMBERG AT A RAPID RATE.

Both flanks of General Count von Bothmer's army on the Lemberg front are under heavy pressure, and its center is accounted by military observers to have none too secure a position in its rear.

Petrograd announces today, new gains for the Russians on the northern wing of this front, while today on the south they are continuing their thrusts up the Dniester, seven miles from Halicz.

The Russian armies in the center also are pushing the Austrians in the middle Strippa and Koropice regions.

Continuing their advance from Gorizia, on the Isonzo front, the Italians have made further progress to the southeast.

Rome reports the piercing of a strongly defended Austrian line east of Hill 212 and the capture of about 899 additional men.

The Austrians sharply attacked along other sectors of the front but

were repulsed in all attempts, the Italian War Office announces.

Following the usual course, the Germans have sharply counter attacked along the line west of Polziera, which London last night reported the British to have carried to a depth of three or four hundred yards on a front of nearly a mile.

The attack was partly successful, the Germans gaining a foothold in a portion of the lost trenches.

Following up their gains on the north bank of the Somme, the French are pushing their advance to a point where German evacuation of Cleary, commanding the direct approach to Peronne from the northwest, may be compelled.

## SLOW NEWS OF ELECTION

Secretary of State on Democratic and Judge on Republican Ticket in Doubt.

By Associated Press Dispatch.

Columbus, O., August 14.—Returns from last Tuesday's state primary were still missing from Hamilton, Licking and Medina counties today.

Until these counties report the nomination for secretary of state on the Democratic ticket and for the second nomination for Judge of the Supreme Court on the Republican ticket will be in doubt.

Returns from 85 counties on the Democratic ticket for Secretary of State give William D. Fulton of Newark, 36,796 votes, to 33,453 for J. Henry Newman, of Columbus.

The figures on the Republican side show that James Joyce, of Cambridge, lead candidates for the nomination for Supreme Court bench with 30,891 votes in the 85 counties, while Willis Vickery, of Lakewood and Augustus N. Summers, of Springfield are running close for the other positions.

## OHIO BOYS WAIT WORD

No Official Word Fixing Time for Departure of the Troops Comes From Department.

By Associated Press Dispatch.

Camp Willis, Columbus, August 14.—With no official word from War Department officials backing up news dispatches from Washington Saturday to the effect that the Ohio National Guardsmen are to be sent to the Mexican border "as soon as equipped," guard officials were today anxiously awaiting some definite word, and, in the meantime, were making ready wherever possible, so the least possible time would be required when the final word "go" arrives.

Officers, however, seem optimistic and believe some of the troops will be out of camp before the end of the week.

## MINERS FAIL IN ATTEMPT

Operators and Workers in Columbus Session Make No Progress.

By Associated Press Dispatch.

Columbus, O., August 14.—Mine operators and representatives of striking miners of the Hocking Valley district failed to reach an agreement at a conference here today. Both sides will continue negotiations.

The miners struck last week, when the operators increased the price of powder used by the men in mining coal.

There are 2,500 miners on strike and nine mines are idle.

## DELEGATES MUST COME WITH LABELS

By Associated Press Dispatch. Toledo, August 14.—Every delegate to the Thirty-Third Annual Convention of the Ohio Federation of Labor will be required to show as credentials union labels on his clothing, according to information received by local union men from the secretary of the state organization.

The convention will be held here October 9 to 14.

#### MORE TROUBLES FOR C. H. & D.

Cincinnati, O., Aug. 12.—Suit for the foreclosure of the general mortgage of the Cincinnati, Hamilton and Dayton Railroad Company, executed July 1, 1910 by the Central Trust Company of New York, as Trustee, to secure a bond issue of \$20,000,000, of which \$17,736,000 is alleged to be outstanding, was filed in United States District Court yesterday by the Central Trust Company.

The company avers interest defaults were made on these bonds in

January and July 1915, and in January, 1916, and that these interest installments amount to \$266,040 for each period. It is alleged under the terms of the mortgage notice was given to the defendant company duly declaring the principal and interest to be due and payable because of the default of interest for a period in excess of six months, and there now is due \$17,736,000 and interest to the bondholders.

Court is asked to declare the general mortgage to be a valid lien upon the property of the railroad company, and that the company be adjudged to be obligated to pay the sum due on the bonds and coupons, together with the costs and other

expenses of the trustee in the litigation. This is the third foreclosure proceeding brought against the C. H. & D. Company since July 1, 1914. The first foreclosure suit was brought by the Bankers' Trust Company of New York, as Trustee, under the first and refunding mortgage of the railroad company, July 2, 1914. In this proceeding Judson Harmon and Rufus B. Smith were appointed receivers of the road.

O. E. S. Regular meeting of Royal Chapter No. 29, O. E. S., Monday evening, August 14th at 7:30. MARTHA R. MARK, W. M. MARARGET A. COLWELL, Sec'y.

#### WOUNDED VETS DRAW ATTENTION

(Associated Press Cable.) London, Aug. 14.—The first veterans of the war wearing the new stripes of gold braid recently decided upon by the War Office as mark of distinction and honor for those who have been wounded in battle have appeared on the streets. Wherever they have appeared the men have been the object of the greatest attention and homage, so much, in fact that in many instances the recognition of their efforts has been embarrassing.

The thin stripe of braid is worn on the cuff of the left sleeve—one stripe for each wound.

#### HUGE GASSER

The Ohio Fuel drilled in a big gas well on the Sam's creek below Adelphi. The drill dropped in Wednesday afternoon and with the large tubing still in, the test gauge showed a flowing over two million. The gas men say there is a strong probability when the small casing is in that the well will flow close to three million. Drillers are working without interruption on the new Salem Karshner location; will be ready in a day

or two to start to drill on the new farm, and the derrick is now on the Nels. Delong farm for other hole.—Adelphi Border News

## Mediation and Arbitration

Is there any difference in mediation and arbitration, one of our good friends asks.

Yes, there is a difference, though sometimes the two words are used to express the same act but probably incorrectly. The difference is technical to a great extent, but still there is a real difference.

As we understand it, arbitration is the result of an agreement reached between two disputants to submit their respective contentions and arguments to an individual or to several individuals with authority to settle, finally, the matters in dispute.

Mediation is rather the act of an outsider, offering his services to two disputants with the purpose of assisting them to adopt some plan by which their controversy may be settled.

Mediation has, as a rule, nothing to do with the subjects over which a disagreement has occurred. It begins with the offer to assist in arriving at some definite plan which will deal with the dispute and settle the contentions.

Mediation may lead to arbitration. The mediator may, ultimately, and as a result of the offer of mediation, have the power to enter into a consideration of the matters in dispute, conferred upon him. In that event he ceases to be a mediator and becomes an arbitrator.

An illustration in point is the present controversy between the railroads and employees.

The Federal Board of Mediation and Conciliation offered its services as mediator. That offer was accepted but the Board has been powerless thus far to settle the dispute, because no plan to which both sides will agree has been suggested.

The Board is still a mediator. It will not become an arbitrator until both sides agree to submit their several contentions for final settlement.

The mediator is powerless to enter into the questions in dispute.

## The Flushing Contract

The matter of contracting to clean and flush the newly paved streets of the city has developed some very odd and interesting angles to say the least of it.

It seems now that there are many details in connection with that contract which are demanding the earnest consideration of the official family.

Citizens of prominence are intensely interested and are discussing the matter pro and con with a freedom and understanding which seems a certain guarantee of an equitable contract at the conclusion of the negotiations, if their advice is accepted and considered by the men charged with the responsibility of contracting.

All interested parties, in matters like this, and that includes almost every home owner in the city, are entitled to be heard, to have their wishes respected and their advice, when found to be sound, followed.

The paymaster in private business is an exceedingly important person and there is no reason why he is not just as important in public business as he is in private.

At the meeting of the city council tonight it is likely that the matter will be gone into pretty thoroughly.

## Get Back on the Fence

When James A. White, the Ohio superintendent of the Anti-Saloon League, announced that the league would support Myron T. Herrick for United States Senator because it had the direct personal assurance that Mr. Herrick would support the amendment to the federal constitution prohibiting the liquor traffic, he hurled a high explosive bomb into the camps of the politicians.

The announcement of Mr. White has disturbed both political camps alike. Not only are Mr. Herrick's political friends fearful that it will alienate a considerable support from his standard in the coming campaign, but the camp of Mr. Herrick's opponents seem to be equally as much disturbed, their fear being that the announcement will result in fixing the dry vote to Mr. Herrick.

The attempts of seekers after office to dodge the liquor question often lead to ludicrous results and the present situation is one. Some of Mr. Herrick's political friends are very much averse to a too close alliance with the prohibition element—they want him to keep himself in shape to do what other "successful" politicians have been doing so long—line up both opposing factions under his standard.

Mr. Herrick's opponents would be very much elated to see him lose the support of both the wets and the dries but they are not content to see him gain even one for sure, no matter if by so doing he does lose the other.

The present hub-bub over what Mr. Herrick is claimed to have done is not unusual, but it is none the less interesting, for that reason.

In the meantime it seems that it is up to Mr. Herrick to get back on the fence, where according to all the rules of politics, he should have remained. Then the political managers in both camps will breath easy once more.

## Poetry For Today

### GOOD-BY.

Good-by, proud world! I'm going home;  
 Thou art not not my friend, and I'm not thine.  
 Long through thy weary crowds I roam:  
 A river-ark on the ocean brine,  
 Long I've been tossed like the driven foam;  
 But now, proud world! I'm going home.

Good-by to Flattery's fawning face;  
 To Grandeur with his wise grimace  
 To upstart Wealth's averted eye;  
 To supple Office, low and high;  
 To crowded halls, to court and street  
 To frozen hearts and hasting feet;  
 To those who go, and those who come;  
 Good-by, proud world! I'm going home.

I am going to my own hearthstone,  
 Bosomed in yon green hills alone—  
 A secret nook in a pleasant land,  
 Whose groves the frolic fairies, planned;  
 Where arches green, the livelong day.

Echo the blackbird's roundelay,  
 And vulgar feet have never trod  
 A spot that is sacred to thought and God.

O, when I am safe in my sylvan home,  
 I tread on the pride of Greece and Rome;  
 And when I am stretched beneath the pines,  
 Where the evening star so holy shines,  
 I laugh at the lore and the pride of man,  
 At the sophist schools and the learned clan;  
 For what are they all, in their high conceit,  
 When man in the bush with God may meet?  
 —Emerson.

## Weather Report

Washington, D. C., August 14.—  
 Weather forecast:  
 Ohio—Fair Monday and probably Tuesday; warmer south Tuesday.  
 Tennessee—Partly cloudy with occasional showers Monday; Tuesday fair.  
 Kentucky—Partly cloudy Monday and Tuesday.  
 West Virginia—Fair Monday and Tuesday; warmer west Tuesday.  
 Indiana—Fair Monday and Tuesday.

### WEATHER FORECAST

Ohio—Fair; warmer.

#### Daily Calendar.

 Highest temperature 78.  
 Lowest temperature 63.  
 Mean temperature 71.  
 Barometer 30.02. Falling.

### PROPOSAL ON A PINE STRIP.

Girl Artist in Burnt Wood Sends Reply to Lonely Lumberman.

Elizabeth, N. J.—Miss Mary Hanna, a burnt wood artist in a novelty plant here, found on a strip of pine a message from a lonely Wisconsin lumberjack reading:

"If a girl finds this board, my name is Peter Peterson, and I want a wife. For I'm lonesome. Address Peter Peterson, General Delivery, Green Bay, Wis."

Miss Hanna admitted a postal showing Broad street at its busiest and carrying a message not discouraging was already on its way to Green Bay.

## Borrow Money

From The Buckeye State Building and Loan Company, Rankin Building, 22 W. Gay Street, Columbus, Ohio.

1. And thus save money
2. For you get better terms
3. And lower interest.
4. Call or write today.
5. It will pay you to do so.
6. Take the train to Columbus
7. And investigate.
8. Assets \$11,400,000.00.
9. Applications promptly looked after.

## FINANCIAL WORRY

(By American Press)

Sidney, O., Aug. 14.—Charles O. Bennett, 28, of Bennett Heights, committed suicide by shooting himself. Financial reverses are said to be responsible for the act. He is survived by a young widow, and a 3-weeks-old baby.

## MINERS ARE BACK

(By American Press)

Athens, Aug. 14.—The 2,500 miners in the Hocking district who struck because operators charged them more for powder were ordered by their officials to return to work pending a settlement. A conference will be held in Columbus to settle the controversy.

## WILSON SIGNS BILL

(By American Press)

Washington, Aug. 14.—President Wilson signed the agricultural appropriation bill carrying approximately \$27,000,000, and the Military Academy appropriation bill, carrying \$1,225,000.

## DEAD AT 104

(By American Press)

Tolals, Aug. 14.—Chief Gwan H-day (Falling Snow), 104 years old, said to have been the oldest Iroquois Indian, died here from infirmities of age.

## BATHER DROWNED

(By American Press)

Hamilton, O., Aug. 14.—John Farinchi, 22, was drowned here when he was seized with cramps while swimming in the Miami river.

### OLD GAME CATCHES FARMER.

Sends Cash to "Widow" Coming to Wed Him—She Doesn't.

Eastford, Conn.—Hear the sad tale Philip Voorhis, bachelor farmer of this quiet town, tells. In a Rochester (N. Y.) newspaper he read an ad. A lonely young widow of that city yearned for a good, true husband. Voorhis answered the ad. and, he avows, got a reply. All that was needed was \$18, and she would hurry to Eastford, meet him, perhaps happily mate with him. As it happened all her available funds were tied up in a stock deal.

Gladly Philip sent the \$18. He met the train the widow named; he awaited several trains. No widow tripped out from one of them nor even fell, stumbled or was thrown out.

At Philip's mournful request the police investigated. They learned that at the two addresses in Rochester the widow gave had lived a man whose wife received numerous letters. The Rochester police say Philip's anticipated mate is known variously as Mrs. Hatch, Mrs. Mack and Mrs. Loevere.

### FOUND AFTER 21 YEARS.

Man Whose Mother Thought He Was Drowned Will Go Home.

Pratt, Kan.—Charles M. Short, who has been mourned as dead by his mother, Mrs. M. A. Annett of St. Joseph, Mo., has been found in this city and is alive and well.

Short tells a peculiar story of a roaming life, which he has at last decided to stop and go home to his mother. About twenty-one years ago Short left his home at Excelsior Springs, Mo., and started out for himself.

He went to San Francisco, where he went on the seas as a sailor. He never wrote his mother, but a word to a cousin in Nebraska gave the information that he was a sailor on a certain boat. This vessel was reported sunk, and there was no report of Short's name in the list of survivors.

His mother then mourned him for dead until recently a flash came over the wire from the cousin in Nebraska that Short had been found.

### CURE FOR INSOMNIA.

Austrian Physician Says It Is Merely a Case of Stretching.

Vienna.—A well known Austrian physician, Dr. Ebstein, claims the discovery of a physical exercise that will cure insomnia. As explained in the Physical and Diet Therapeutics Journal the cure consists of the simple process of grasping with both hands the head board or rail of the bed and of straining upward until the arm and shoulder muscles are fatigued.

Sleeplessness in most cases is caused by irregular blood circulation in the brain, Dr. Ebstein explains. This comes to pass because of the slight difference in altitude between the head and the heart when one is lying down. By raising the arms and straining upward the physician claims the flow of the blood to the head is increased, while at the same time a certain degree of fatigue aids in getting to sleep.

### BAD TEETH MADE HER STEAL.

Maid Says She Took Money to Have Dental Work Done.

St. Louis.—Bad teeth and a desire for a new dress were the reasons given to the police by Anna Fischer, seventeen years old, a maid at the Deaconess hospital, for the theft of \$80 from Miss Ella Loew, a nurse, following the girl's arrest.

"I spent \$62 getting my teeth fixed," the girl told the detectives, "and the rest I spent on a dress. That's all. The money was lying on a dresser when I cleaned the room, and it was too great a temptation, because I had suffered for some time with my teeth."

## REPAIR OWN ROADS

When Macon (Mo.) Motorists Find Hole They Fix It.

### CALL AID IF JOB IS TOO BIG.

Farmers and City Residents Unite In Keeping Highways Fit by Doing Work Themselves—Harmony Between the Two Brings Good Results.

Macon, Mo.—Macon county is full of patriotic citizens these days who carry hoes to do emergency work on the roads. The hoe, and sometimes a shovel also, is carried behind the motor car, and whenever the public spirited citizen runs into a mudhole or a place which he thinks he can improve with a little work, he gets out and does it. It is considered bad citizenship here to pass over a mudhole without trying to repair it.

Farmers used to smile when the town men talked about working on the roads, but since they have shown so much interest in the matter the farmers welcome them in the all important road work. Of course one man and one hoe can't do any great amount of work, but the man can start on the job, and if he finds it too big to tackle he can give the emergency signal with his motorcar horn, and there are plenty of farmers who will respond to his call and help do the job.

Dr. A. B. Miller, former president of the Macon Good Roads club, leader of "The Man With the Hoe" organization, said:

"The biggest thing the town man with the hoe does on the country road is to convince the farmer that he is really in earnest in this matter of good road work. When the farmer is satisfied that his city brother is going with him he will go to the limit. It means that before long we are going to have in this county such a sentiment as will vote almost unanimously for any proposition that tends to insure roads that will be good all year.

"We are approaching the era of hard surface roads. When we get everybody thinking and approving the road campaign it will be an easy matter to get the money necessary to carry on the work. It is no uncommon thing in driving over the country to see a preacher or a merchant on a highway alone tearing up weeds, shoveling dirt in a mudhole or cleaning out a ditch with a shovel. The work of these volunteer workers is bound to result in a perfect highway system. The fundamental is to get the people firmly decided on a thing and then they will go after it."

Scranton, Pa.—Mrs. Ella Anderson, aged sixty-six, and Mrs. Fannie Merriek of Little Marsh, Pa., sisters, embraced each other at a family reunion in Elbridge park recently after not seeing each other for an even half century. They were brought together by a third sister, Mrs. A. C. Shaw of Elmira Heights, N. Y.

# SUIT BROUGHT TO ENJOIN SAFETY-SERVICE DIRECTOR

Action Filed in Court of Common Pleas Ties Up Further Action on Street Flushing—Grounds Are That Safety-Service Director Acted Illegally, That Bid Not Lowest and Cost Excessive.

Late Saturday evening City Solicitor Pope Gregg, at the request of R. C. Hunt and on behalf of the city filed suit in the common pleas court to enjoin Safety-Service Director James Hillery from entering into a contract with Thomas Hillery for flushing the paved streets of the city.

The grounds alleged by the plaintiff, The City of Washington, are that the Hillery bid was not the lowest legal bid; was "excessively exorbitant" and that the Safety-Service Director acted without authority in casting two votes to award the bid to Thomas Hillery. Solicitor Gregg is to be assisted in the action by Post & Reid and F. A. Chaffin.

The petition calls attention to the merging of the offices of Safety Director and Service Director, as permitted by law, and the steps leading up to receiving bids for flushing the paved streets. Also that neither bid was submitted to do the work by the front foot of the property bounding on the several streets.

That the bid of Thomas Hillery was several thousand dollars per year higher than the James S. Wilt bid, and that Wilt was ready to proceed with the terms of the specifications.

Petition further states that Safety-Service Director Hillery "regardless of the law or the rights of the plaintiff and the tax payers of said city," pretended to enter into a contract with Thomas Hillery. That under the law the City Auditor is clerk of the Board of Control, but defendant pretended to call a meeting of the Board of Control and pretended to appoint James J. Flynn as clerk at the meeting, "against the protest of the said James Flynn."

The petition then recites that the defendant, claiming two votes, one as Safety Director and one as Service Director, proceeded to vote twice to award contract to Thomas Hillery, while Mayor Oster, the other member, voted against it. That the action was illegal, and that said attempted contract is wholly illegal and void.

Plaintiff states that at no time was a certificate filed by the City Auditor with the Board of Control, showing that the money required for the alleged contract was in the treasury to the credit of the fund from which it is to be drawn. That the bid of Hillery is far in excess of what it is worth to do the work required by the ordinance, and far in excess of what other cities pay.

Plaintiff charges that Safety-Service Director Hillery pretended to contract for period of five years when he could not, if proceedings had been regular, enter into a contract for more than one year. That he attempted also to bind the city to add other streets from time to time during the five years, and that the action was wholly void.

It is further noted that while the terms of the specifications provided

for flushing the streets from April 1 to November 1 each year, that said alleged contract nowhere provides when Thomas Hillery shall begin work, nor for what deduction on time from April 1st to date of contract.

In conclusion the court is asked to declare the petition null and void, and that the Safety-Service director be restrained from doing anything toward carrying out the alleged contract, and permanent injunction.

The suit places the flushing matter in the hands of the court, and council will probably not take further action on the matter at present.

Indications are that no street will be flushed this summer. Meanwhile agitation for the city to buy a flusher and do the work is increasing.

## DEATH CLAIMS J. QUINCY BARGER

The death of Mr. J. Quincy Barger following a recent operation for appendicitis, took place at two o'clock Monday morning at the Fayette Hospital.

The son of Mr. and Mrs. Isaac Barger, of Leesburg, and belonging to one of the prominent and most widely connected families in the county, Mr. Barger's death brings sorrow into a wide circle and the sympathy of many friends goes out to the bereaved family.

Last week Mr. Barger was brought to the hospital in a critical condition which aroused grave anxiety and offered little hope. His vitality and strong physique were in his favor but were powerless to overcome the hold of the disease.

To the last family and friends refused to give up hope and it seemed most untoward that the big hearted, genial man with a word of friendly greeting to everybody, should have been summoned in all his strength at forty-five years of age. He is survived by his widow, parents, one sister, Mrs. K. R. Teachnor, of Leesburg, and one brother, Taylor.

Funeral services will be held from Olive Chapel, Thursday at 1 o'clock, sun time. Interment in Leesburg cemetery.

## MRS. MARY M. SHEPLER DIES SATURDAY NIGHT

Mrs. Mary M. Shepler, widow of the late Bert Shepler of Good Hope, died Saturday midnight after a serious operation for gall stones which had caused gangrene.

The deceased was 31 years of age and a daughter of Mrs. Ben Stewart. She leaves two small daughters and a small son.

Funeral services will be held at the Good Hope M. E. Church, Tuesday afternoon at one o'clock, and interment will be made in the Good Hope cemetery.

## DRAWN \$5 AND COSTS

In Mayor Oster's court, John Culberson was fined \$5 and costs for interfering with an officer, and Harve Culberson drew a similar fine for being intoxicated. The total amount was \$21.

## UNION SERVICES AND FAREWELL TO REV. A. W. WEST

The union services and Rev. A. W. West's farewell sermon at the First Baptist church, Sunday night, packed the church to overflowing, and many could not find seats.

Before the splendid sermon delivered by the departing pastor, Supt. Wm. McClain, representing the laity of the city, made a short address in which words of deep appreciation of the services of Rev. West, both as pastor and citizen, and how he would be missed, were spoken.

Following Supt. McClain, Rev. Gage, on behalf of the Ministerial Association, paid tribute to the zeal and ability of Rev. West, and stated that the Association would sadly miss him. He also spoke words of highest praise for Rev. West as a citizen and as pastor, and extended hearty well wishes to him in his new field of endeavor.

Responding to the words of appreciation spoken by Supt. McClain and Rev. Gage, Rev. West feelingly expressed his own appreciation of the co-operation of the other pastors, churches and citizens; how he regretted leaving Washington, stating that never before had he lived in such an ideal place, or where his relations with the people in general and his congregation in particular, had been more congenial.

During the course of his remarks, Rev. West stated that he wished to extend to The Herald his deep appreciation of courtesies extended, and that he wished to speak a word of praise for the high standard maintained by The Herald and that it championed the best interests of the city and citizens.

Rev. West then delivered his farewell sermon, in which believing in Jesus Christ was the keynote. After his sermon and a closing number by the union choir, the meeting was dismissed and scores pressed forward to grasp the hand of Rev. West in farewell, and extended to him and his family best wishes for happiness in their new home.

## GET LICENSE IN KENTUCKY COURT

Thomas Sword, giving his age as 22, of this city, and Bertha Wolfe who is alleged to have given her age as 21, were married in Covington, Kentucky, Saturday.

Sword was arrested in this city last spring and held in the county jail several weeks, on a serious charge involving the Wolfe girl, who is said to be 15 years of age. The charge had not been fully disposed of in this city.

100 trimmed hats for fall trade have just arrived. Come and see them, they are handsome and cheap. GLICKSMAN.

## TRACK REMOVED FOR TRAIN SHEDS

In accordance with agreement made with the B. & O., the D. T. & I. has removed several car lengths of siding at a point almost in front of the Union Station, and extending down to Temple street, so the platform may be extended southward to a point near Temple street, and so that additional train sheds may be constructed over the platform for the entire distance.

The work of removing the track and making another switch was completed Monday, and workmen are engaged in building the platform and concrete base for the shed supports.

The C. H. & D. is also making additional track repairs near the station.

## COUNCIL MEETING AT 7:30 TONIGHT

The City Solons meet in adjourned session at 7:30 tonight, and will take up several matters of business, it is expected.

In all probability no action will be taken in connection with the flushing question, the matter now being in the hands of the common pleas court.

Indications are that a large attendance will be a feature of the meeting.

## JOHNSON IS NAMED RURAL MAIL CARRIER

Henry C. Johnson has been appointed carrier of Rural Route No. 1, out of this city, succeeding Wheeler Bay who resigned the position to accept the job of city carrier.

Mr. Johnson previously had been with the Western & Southern Insurance Co. and will begin his new work immediately.

## BAND CONCERT ON THURSDAY NIGHT

The Band Concert this week will be given Thursday night of this week instead of Tuesday night, in order that the big crowds from the fair may enjoy the same.

The concert will be given at the usual place, on the Court house lawn, and a cordial invitation is extended to everyone to attend.

## SHOULDER FRACTURED BY UNRULY HORSE

I. S. Morris, of Highland avenue, sustained a fractured shoulder Sunday, when a horse which he was doctoring threw itself against him and crushed him against the side of the barn.

The injured man was removed to the Fayette Hospital where his injuries were given proper attention.

Good Housekeepers Use The Best. That's why they use Red Cross ball blue. At leading grocers, 5 cents.

## BACK WAS BROKEN IN RECENT MISHAP

After careful examination it has been discovered that when Mr. Thomas Wain recently suffered injuries in this city when a load of hay overturned, his back was broken, or rather one of the bones of the spinal column at the hips, was fractured.

The injury will compel the injured man to remain in bed for at least six weeks. The injury is much worse than at first believed.

## WILL DEMONSTRATE ELECTRICAL GOODS

A demonstration which was opened Monday, at the office of the Washington Gas & Electric Company in this city, is expected to be of great interest to all citizens in general, throughout this week.

The company has experts from the factories who demonstrate all household electrical appliances, and giving full information about same. The display and demonstration show the many and varied practical uses for electricity.

## GYPSIES TO BE KEPT ON THE MOVE

Health Officer Byron requests all persons to notify him immediately at the Mayor's Office or his residence, if a band of gypsies appear in this city, so that they may be taken in charge and speedily conducted out without being permitted to stop here.

This precaution is to be taken to prevent them from spreading infantile paralysis, or other disease which they might carry.

## HORSE SHOE WILL BE OPEN TO ALL

Supt. A. W. Duff announces that the horse shoe pitching contest at the Fair, Wednesday, will be open to all comers during the day, and the one making the highest score will be certified over as Fayette's champion.

No admission will be charged, and entries may be made throughout the day Wednesday.

## ASKS JUDGMENT

In common pleas court S. A. Adams has filed suit against Margaret Vincent et al., for judgment on a \$75 promissory note, reformation and foreclosure of mortgage on property in Washington. J. F. Adams represents plaintiff.

WASHINGTON CLASS WINS THE CONTEST

The contest which has been going on for the past eight weeks between the Christian Bible school of this city and Jackson, came to a close Sunday.

The victory was won by the local school, having a number of points in the lead.

A special effort was made to make a high record on the last day and the result showed an attendance of 408 and an offering of \$14.79. A splendid spirit has been manifest in this friendly rivalry and both schools have been greatly benefitted.

MARRIAGE LICENSES

In Social Circles

Invitations are now out for the Seventeenth Annual Midsummer Dance, given by the B. P. O. Elks at their club home. A large number of invitations went out to other towns and many young society folk are expected from abroad.

The committee, P. E. Wolford, Frank Michaels and Foster Lane, have been fortunate in securing Parker's four piece orchestra from Columbus, which insures exceptionally fine music.

HEALTH OFFICER IS STILL WAITING

So far Mr. and Mrs. Hugh Weir and adopted son, who were alleged to have left Long Island, N. Y., for this city after the child had been in close contact with infantile paralysis, have not arrived in this city, and some doubt has arisen as to whether they had planned such a trip.

Up to three o'clock Monday afternoon nothing had been heard from them, but a communication sent to them on Long Island by Dr. E. C. Hamilton was expected to bring a reply by late Monday or early Tuesday.

Meanwhile the health authorities are meeting each train.

Free!

During this sale the manufacturers will have an expert stove man to operate the King Clermont and show you how it gets all the heat out of the fuel. He will literally take this wonderful stove apart and explain its construction. The King Clermont is the most powerful heating stove made and is the only heater that will burn hard coal, soft coal, slack, coke, wood knots or anything burnable with marvelous results, and best of all, the price of the King Clermont is within the reach of everyone.

The fire travels three times as far as it does in the ordinary heating stove before reaching the stove pipe, so that none of the heat is wasted up the chimney as is the case with other stoves.

The Big Warm Air Flue takes in the cool air at the bottom of the stove and discharges it into the room at the top of the stove—thoroughly heated. In this way the King Clermont keeps all the air in the room in constant circulation, heating it over and over. That's why the corners and floors are always warm, even in zero weather.

If you want to save stove money and get the best heating stove made, take advantage of this phenomenal offer. Everybody welcome. Whether you intend to buy a stove or not, come and see the stove in actual operation. Find out about stove construction and when you do get ready you'll be able to select the stove that will save you time, work and fuel cost.

CARS DERAILED NEAR UNION STATION

Two empty freight cars left the rails at the north end of the B. & O.-C. H. & D. transfer, some 75 yards north of the Union Station, Monday, near the noon hour, but were quickly replaced upon the rails without tying up traffic for any length of time.

Failure to throw a switch was responsible for the derailment.

TAX PAYERS WILL HOLD CONFERENCE

A meeting of the Tax Payers' Association has been called for this evening at seven o'clock, presumably to take up the flushing and other questions of importance.

Fifty to one hundred persons are expected to attend the meeting.

WORK BEGINS ON BLUE RUN DITCH

Work on the large Blue Run county ditch in the eastern part of the county was started a few days ago and is moving forward very nicely.

The ditch in question is an unusually long one and passes through the Humphrey Jones estate.

OLENTANGY PARK

Olentangy Park, the big amusement resort at Columbus, Ohio, still stands supreme among the summer parks of the country. Its immense size and its innumerable attractions including practically every form of summer entertainment, place it in the foremost rank, and visitors to the Capital City find it one of the most interesting spots in the city, where they are sure to find a great variety and abundance of entertainment. Many of the amusements are found in no other summer park and there is something suitable for every one.

Cincione's Italian Band gives excellent concerts in the open air and a free motion picture show is given every evening. The Olentangy Stock Company presents high-class plays in the beautiful theater where a fine orchestra furnishes high-class music.

music. Another splendid orchestra provides music for the dancers in the big dancing pavilion, and there are numerous other attractions to entertain the public.

Big special free attractions will be provided for State Fair Week, for the benefit of out-of-town visitors, most of whom make it a point to visit this wonderful amusement park during their stay in Columbus.

PROOF UNSOLICITED

Michigan, S. Dak. 8-7-16.

Larrimer Laundry Company, Washington C. H., Ohio.

Gentlemen:—I have been thinking of sending my laundry to you, as I was so well suited with your work while in Washington.

I find that you are in the fifth Zone from here, and parcel post rates are 8c on the first pound and 6c on each additional pound.

Three shirts, one dozen collars and three pairs cuffs will weigh about three pounds. I wonder if we could make some arrangement whereby I could still remain a customer of yours, and enjoy the benefits of your excellent work? If you would deem it advisable and have some plan in mind whereby the expense might be made mutual I would be glad to hear from you.

All well here—fine weather; crops badly damaged by continued warm weather. Trusting to hear from you I am,

Sincerely yours,

REV. P. J. HENNESS.

The above is further positive proof of the excellence of Larrimer Service. They have a department especially to take care of mail orders. Send along your bundles.—Advt.

CLASSIFIED

WANTED—Two furnished rooms, central location. Would consider three. Address "Omar" care Herald. 191 t4

WANTED — 10 good plasterers, open shop; state wages wanted. Write Wm. Cranstray, P. O. box 323 Springfield, Ohio. 191 t6

FOR RENT—One half of double house, 4 rooms, on East Temple street. See W. A. Sanders. 191 t7

FOUND — Ring. Owner inquire of Ben Wetzel. 191 t3

TO MAKE A COLLAR LAST

No the answer is not make the shirt first. It is this—Always send it to the Larrimer Laundry. No rough edges; no broken folds—and the tie slips. Both phones.

FIRE FIGHTING

Protection for the home without damage to carpets or furniture. Demonstration every morning and afternoon on Fair Ground. Don't fail to see this work.

# BIG MONEY BILLS UP THIS WEEK

Appropriations of Congress Break All Records.

WILL ACT ON NAVAL BILL

In Anticipation of Close Vote On the Big Navy Measure Every Absent Representative is Notified to Be in His Seat—Leaders in Both Branches of Congress Said to Be Anxious to Adjourn By Sept. 1.

Washington, Aug. 14.—Senate Democrats, who are devoting many hours of deliberation in caucus, are impressed with the importance of the \$200,000,000 revenue bill now nearing completion by the fact that appropriations of the session now nearing completion have broken all records.

With passage this week of the \$50,000,000 ship purchase bill and probable approval by the house of the senate's gigantic naval bill, the appropriations of the sixty-fourth congress will have exceeded the previous high record by at least \$500,000,000. While exact figures cannot be computed until the gavel has fallen on the last supply bill of the session the aggregate appropriation bill this congress for all purposes will probably approximate \$1,700,000,000, as against \$1,114,000,000 for the sixty-third congress.

Besides regular supply bills, which total as they now stand \$1,387,206,530, congress will have added when the shipping bill is approved more than \$90,000,000 for special purposes. There also have been contract authorizations amounting to about \$207,000,000, all of which would bring the grand aggregate to 1,685,000,000, with the uncertain general deficiency appropriation bill, still in the making, to be added at the end of the session.

Special appropriations include \$20,000,000 for a government nitrate plant, \$6,000,000 for good roads, \$15,000,000 for rural credits and \$50,100,000 for the government shipping project. General supply bills that enter into the session's total are as follows:

Postoffice, \$322,206,579; navy (yet to be approved), \$315,286,843; army \$267,597,090; pensions, \$158,060,000; sundry civil, \$128,396,445; rivers and harbors, \$42,886,085; legislative, executive and judicial, \$37,025,690; army and navy and other urgent deficiencies, \$301,12,075; agriculture, \$27,000,000; fortifications, \$25,748,050; District of Columbia, (yet to be approved), about \$13,000,000; Indian affairs, \$10,967,640; diplomatic and consular, \$5,355,096; and military academy, \$1,225,043.

Final action on the long disputed naval bill is expected before the week ends. With President Wilson and a majority of the party leaders urgently supporting the senate's naval building and personnel increases, it is believed the house will agree to them after the advocates of a small navy have made their last fight. In anticipation of a close vote, every absent representative was notified more than a week ago of the approaching contest, which will mark the climax of the national defense campaign. Two days may be required to dispose of this issue in the house.

Appropriations for preparedness alone will aggregate approximately \$640,000,000, unless unexpected developments should force a reduction in the naval program.

While the house this week is bringing defense legislation to a close, the senate will pass the ship bill, workmen's compensation bill and conference reports preparatory for the revenue bill, on which a stubborn political assault will be waged by the Republicans. When the amended revenue bill gets through conference, it is expected congress will be ready to adjourn. Leaders of both parties are hoping adjournment will come by Sept. 1.

## HINDERBURG, COMMANDING 2,500,000 MEN AND GENERALS ON HIS BATTLE FRONTS

EASTERN BATTLE FRONT AND TEUTON COMMANDING GENERALS.—TOP TO BOTTOM, VON HINDERBURG, LEOPOLD OF BAVARIA, VON LINSINGEN, VON KOEVESS.

Field Marshal von Hindenburg, commander of the armies opposing the Russians, now leads the greatest forces ever commanded by one man. Their number is estimated at 2,500,000. Von Hindenburg in per-

son leads in the most northerly sector, near Riga, in Russia, and the other sectors as shown on the map are commanded by various German and Austro-Hungarian generals. Of these men Von Linsingen is the best known, but the others have

been named frequently in the war dispatches. Of these generals Von Hindenburg, Prince Leopold of Bavaria and Von Linsingen are Germans; Bothmer, Pflanzer-Baltin, Tersztjanszky, Boehm-Ermolli and Koevess are Austro-Hungarians.

## GUARDS PLEASED OVER PROSPECTS

Another Rumor That Troops Will Soon Go to Border.

Columbus, Aug. 14.—Ohio national guardsmen evinced no disappointment when they failed to get orders to move to the border, which were reported as having been sent from Washington.

They have quit expecting things and quit making serious guesses as to when they may get to leave camp. They have reached a stoical, indifferent frame of mind and are prepared for anything, no matter what.

Information, said to have come in a roundabout way through a civilian from General Barry, commander of the central department, is to the effect that all the troops will be out of camp by Saturday. There have been so many reports of this kind, however, that officers refuse to place credence in any of them.

Further equipment continues to arrive daily. It is said that enough equipment of all kinds except shoes is now at camp to fit out all the soldiers.

Captain Cromwell Stacy, assistant inspector general of the United States army, is making rigid inspection of all the regiments. The inspection of a regiment usually lasts a day. It includes everything from company, battalion and regimental drills, in close and open formation, to an examination of the company records.

A report at the camps is that most of the Ohio men, if not all, will be transported in tourists' cars. More than 200 such cars are said to have been assembled here for the purpose.

## AWFUL TOLL

(By American Press)

Johnstown, Pa., Aug. 14.—Twenty-five persons were killed and 63 injured in a head-on collision between two crowded trolley cars on the line of the Southern Cambria Traction company, between Echo and Brookvale seven miles from here. Fourteen persons were instantly killed, while eleven others died after being removed from the wreckage. Several more are in a critical condition and will probably die. The cause of the accident has not been determined.

A majority of the victims were members of the Dishong and Ribblett families enroute to a reunion at Woodlawn park.

## FARM LOAN MEN GIVE ITINERARY

Hearing Will Be Public and Farmers Invited.

Washington, Aug. 14.—Dates and places were announced here for the first 13 hearings to be held by the farm loan board for compiling information on which it will divide the country into 12 farm loan districts under the new rural credits law and determine the location of a federal loan bank in each. The first will be at Augusta, Me., a week from today, and will be followed by a trip across the continent to Spokane, where the first leg of the board's tour will be completed Sept. 4.

The itinerary, so far as worked out, with the dates of hearings, follows: Augusta, Me., Aug. 21; Concord, N. H., Aug. 22; Hartford, Conn., Aug. 23; Springfield, Mass., Aug. 23; Utica, N. Y., Aug. 24; Lansing, Mich., Aug. 25; Madison, Wis., Aug. 26; Des Moines, Ia., Aug. 28; Sioux Falls, S. D., Aug. 30; St. Paul, Minn., Aug. 31; Fargo, N. D., Sept. 1; Helena, Mont., Sept. 2; and Spokane, Wash., Sept. 4.

The hearings will be public and farmers' organizations are invited to appear before the board and submit all the information which they think will assist the board in solving the important problem of determining the boundaries of the districts and locating the federal land banks.

Buy it in Washington — Your merchant has it.

## NOW, THEN!

(By American Press)

Chicago, Aug. 14.—Only in the possible piercing of the Dardanelles lies hope of materially lower prices for wheat, according to J. P. Griffin, president of the Chicago Board of Trade. This, he said, would throw open to the consuming nations the three years' surplus grain stored in Russia. Mr. Griffin cited the government figures on wheat production to show that the principal cause of the recent jump in prices was due to insufficient production, only 654,000,000 bushels being produced this year against 1,012,000,000 in 1915.

You can get it in Washington.

# BRITISH CAPTURE TRENCHES

London Reports Big Gain In Somme Region.

ITALIANS STILL ADVANCING

Constantinople Reports British Compelled to Retreat and Suffer Heavy Losses in Battle East of Suez Canal. Berlin Claims Russians Thrown Back Several Places By Counter Attacks in Galicia.

London, Aug. 14.—Hard fighting in the Somme region of France, in Galicia and in the Italian theater, with further gains for the entente allies in all three regions, marked the latest operations of the war in Europe.

Northwest of Pozieres, north of the Somme, the British made an advance of from 300 to 400 yards over a front of nearly a mile against the Germans, and also captured trenches on the plateau northwest of Bazentin-le-Petit, while the French southeast of Baurempas gained a further foothold on the slopes of Hill No. 109.

Between Thiepval and the Somme according to Berlin, assaults by the entente allies broke down with heavy casualties to the attackers. The fighting near Hem and Maurepas continues, the men repeatedly coming to grips in hand-to-hand encounters.

Mariampol, in Galicia, seven miles southeast of Halicz, the town of Podglacy and several villages along the upper Sereth river, have fallen into the hands of the Russians. All along this front, even in the Carpathian region, Petrograd reports that the Russians are continuing their advance against the Austro-Germans.

On the Bystritsa sector and near Monasterzyska, however, Berlin says the Russians have been thrown back at several places by the counter attacks of the Teutonic allies.

The Duke of Aosta is keeping up his strong offensive against the Austrians in the Isonzo region, having driven them from fortified positions in the Monfalcone and Gorizia sectors and taken prisoner more than 2,000 additional men.

Constantinople reports that the Turks east of the Suez canal have turned against the British and compelled them to retreat with heavy losses. The London war office, however, disputes this statement, asserting that the British cavalry is still in pursuit of the Turkish rear guard which Saturday had been driven back to a position east of Bir-el-Manca.

After a long period of inactivity, the British along the Euphrates, in Mesopotamia, attempted an advance against the Turks, but retreated after two hours' fighting. Further advances for

the Turks against the Russians on the Persian front and in Turkish Armenia also are claimed by Constantinople.

## HORSEMAN HURT

(By American Press)

Youngstown, O., Aug. 14.—Two men were injured, one probably fatally, and scores of passengers were badly shaken up when an Erie passenger train was derailed at Girard by spreading rails. Francis Belmont of Philadelphia, had his chest crushed and was injured internally. Charles Karr of Alpena, Mich., also was seriously injured. Both men were in charge of race horses going from Cranwood to Columbus.

## SETTLED

(By American Press)

Cleveland, Aug. 14.—The strike of the milk wagon drivers ended when the tentative proposal of Mayor Harry L. Davis, State Mediators George F. Miles and C. H. Mayhugh, representatives of the union and officers of the milk companies were accepted. James Thwing, president of the drivers' union, who signed the agreement jointly with officers of the milk concerns, declared it a signal victory for organized labor.

By the terms of the agreement the men will receive advances amounting to \$10 a month and the union is recognized. Employers succeeded in obtaining an abrogation of the closed shop clause, but they do bind themselves to make no terms with individual employees that are at variance with the terms the union has agreed to accept.

## CLOUD BURST'S VICTIM

(By American Press)

Ironton, O., Aug. 14.—After a cloudburst at the head of Sandy Fork the flood of water that swept down the narrow stream carried George Wickline, twenty-five, a prominent young Lawrence county farmer, of Lecta, to his death. Four companions escaped after a battle with the raging water. Wickline's body has not been recovered.

## 13 MINERS KILLED

(By American Press)

London, Aug. 13.—Thirteen miners were killed by an explosion in the Ashington colliery near Blyth. The cause of the explosion is not known.

Continued From Yesterday's Herald

**SYNOPSIS.**

Pierpont Stafford, banker and railroad magnate, with his sixteen-year-old daughter, Gloria, is wintering at Palm Beach. Gloria is a vivacious, but willful young lady who chafes under the restraining hand of a governess from whom she repeatedly escapes. Her childish capers cause young Doctor Royce to fall in love with her. She steals from her room at night and in an auto plunges into the sea where she is rescued by the boatman of the Seminole Indians. She is rescued and returned to her father who had offered a reward for her return.

Mr. Freneau's answer was blurred. Pierpont studied the two young people. He had his own opinion of Freneau. It was formed on brief acquaintance, but he was a judge of men.

"You love each other, eh? Desperately, too? Well, well! Now, look here," he said, after a quick balancing of his mind, "of course you both know that Gloria is too young for marriage. She must prepare herself for the solemn responsibilities of life and graduate at a good finishing school. Now, if you will wait, and not see each other or write to each other, till then, and if you still love each other then, I will not oppose your marriage. I'll do all I can to make you happy. Is it a bargain?"

Freneau had not the courage to refuse the demand in the cold eyes of the millionaire. To be accepted as his son-in-law at any time was a marvelous promise. He hastened to give his own in exchange for it.

When he had promised there was nothing left for Gloria to do but promise also.

"For five years, then," said Pierpont grimly, "you promise not to bother each other or speak or write—for five years."

"I promise!" said Freneau quickly.

"From tomorrow," said Gloria with equal grimness.

"The train leaves very shortly," said Pierpont, and led her in to superintend the packing.

Freneau walked away in a daze. Yesterday he was a broker's clerk. Today he was the son-in-law-elect of one of the country's wealthiest men. What were five years to him?

Five years sounded unimportant to Gloria, too, at the moment. She would love that young man forever.

Five years is a long time, and many things can happen in the eighteen hundred odd days and nights.

Freneau hated Royce, for he rarely like the people whose property he was stolen.

Gloria was gone and Lois was gone, but an attractive youth like Freneau was not left alone in such multitudes of women as gather at Palm Beach with no more serious purpose than escaping the cold drafts of the North and the torments of boredom in the South.

He spent so much time gathering the applause from fair women that when the season closed at Palm Beach his firm gave him his full liberty. He had done nothing, they wrote, to encourage them to pay him further salary. He had to go next to places where his fame had not reached—where he had only his winning personality as capital. He found men rather hard to impress, but there was always some woman foolish enough to believe in his beautiful eyes.

Some of them were rich and some of them were as poor as poor Nell

Trask, the daughter of Gideon Trask, a canal boat captain. He met her in a cheap boarding house, where he paid his landlady nothing much except his promises and some extravagant compliments.

He behaved very shabbily in his affair with Nell Trask, and deserted her cruelly because, at a critical time for her, he got a tip on the market and sold it to a broker, who gave him a share of the proceeds.

He was so tired of poverty that he went to New York and anticipated his promise. But Gloria and her father were abroad on a summer vacation, and Freneau was thrown on his own resources. He flitted himself into another tip and sold that to a broker named Frank Mulry.

Mulry knew the value of such a partner, and he encouraged Freneau to learn from financiers' wives and daughters what could not be learned otherwise. In the course of time Freneau made himself so important to Mulry that he was taken into the firm as a silent partner. At length, through a most confidential tip, he got in as a sort of stowaway in a piratical raid on the market and cleaned up so much money that Mulry was glad to take him into full partnership as the senior member of the firm.

When he saw the legend, "Freneau & Mulry, stocks and bonds, members of the stock exchange," on the door and on the letterheads Freneau felt so important that he did not care what Pierpont Stafford or his daughter thought of him. He was the young Napoleon. One of these days he would buy and sell Pierpont Stafford.

His success enlarged his acquaintance, his attractiveness, and his temptations.

He was on the crest of the wave when he met Lois Freeman again. He was studying the diamond crop in a jeweler's window and wondering just what peace offering he should buy for a certain person whom he had rendered violently jealous when who should step out of the shop but Lois Freeman!

# STRIKE CHIEFS IN CAPITAL

**President Wilson Seeks to Avert Walkout.**

**CONFEREES FAIL TO AGREE**

Chairman Knapp Issues Statement When Negotiations of Employees and Railroad Managers Break Off. Chief Executive Says Tie-Up of Railroads Would Be a Calamity at the Present Time.

Washington, Aug. 14.—Both parties to the railway controversy arrived in Washington early today at the summons of President Wilson. The controversy was laid before the president at his invitation, after the workers had flatly refused any form of arbitration.

The final break came after the men had been in secret session in New York nearly six hours. Reports differ as to the reason for the failure of the negotiations, in view of a cheerful outlook of the night before. The men assert they refused arbitration because the railroads insisted on arbitrating their "contingent proposition." The mediators, however, declared the men rejected their proposition, contending that they would not arbitrate even if the railroads waived the contingent proposition.

The statement of the mediators, issued by Judge Martin A. Knapp, chairman of the board, just before their departure for Washington from New York is as follows:

"After repeated efforts to bring about an arbitration of the pending controversy between the railroads and their employees in train and yard service the United States board of mediation and conciliation was advised by the representatives of the employees that they would not submit the matters in dispute to arbitration in any form.

"The employees further stated to the board that they would not arbitrate their own demands even if the contingent demands of the railroads were withdrawn and also declined to suggest any other plan or method for a peaceful settlement of the controversy.

"They were informed that their decision would be at once made known to President Wilson and also that the president claimed the right to a personal interview with both parties before any drastic action was taken. This request, of course, was granted, and a large delegation of employees with a number of railroad managers will be in Washington Monday for a conference with the president."

President Wilson, in a communication addressed to the brotherhoods and the railroad managers, pointed out that such a paralysis of business as would follow a general railroad strike would be a catastrophe at any time, but would be nothing short of a disaster under present conditions. On this ground the president based his request for a conference with representatives of both factions before a strike order is issued by the leaders of the men.

That the president may succeed in bringing the opposing factions to an agreement as to the merits of arbitration was indicated in Mr. Garretson's response to a question on that point.

"I have no comment to make on what the president may succeed in accomplishing," he said. "Our determination to reject arbitration was due to the attitude of the railroads. Indifference always breeds resistance. And the railroads have been indifferent to the demands of the men. They have made an honest effort to effect a settlement. They have offered to mediate our demands without offering to mediate anything in return. Had they shown a disposition to meet us half way the situation might now be different."

# HILLSBORO WINS FINE BALL GAME

Locals Lose Final Contest to Visitors From Over in Highland—Tie Up the Score After Locals Seemed to Have Game on Ice.

VAN ZANT'S SUPERB WORK IN THE PITCHER'S BOX

Next Sunday the Wilmington Team Comes for the First of the Big Series Between the Two Teams.

A good sized crowd saw the deciding game of the three game series between Hillsboro and Washington go to the visitors by the score of seven to five.

It was a tough one to lose, but the visitors were entitled to the victory and the Athletics are game enough to concede the good playing of the visitors.

Reno, for the locals did not pitch in his usual effective style, the visitors finding him for eleven hits, which, with the generosity of Reno, made 15 by the base on ball route.

Washington took the lead in the third, scoring three runs. Towell scored all the way on a single between first and second which went through the right fielder and was fielded in badly, the ball landing in the crowd while Towell crossed the rubber.

The next two men fanned. Lewis singled, Corwin hit for three cushions scoring Lewis and was himself scored when he crossed the rubber on a passed ball by Johnson.

Washington scored in the fifth. A. Grandle first up was plunked by the pitcher, Reno singled; Grandle going to third. Lewis fanned. Corwin grounded to second for an out at first; Grandle scoring on the play. Adams flied out to center.

Hillsboro tallied in the sixth. Matthews singled. Doyle tripled to deep right scoring Matthews. Vance fanned. Rogers flied to Lewis. Morehead doubled, scoring Doyle. Cordes flied to second for the last out.

Washington's last run arrived in the sixth. H. Grandle took first on an error, to second on an overthrow to catch him off first, to third on Towell's out at first and scored on a passed ball.

Then came the ninth.

Morehead, first up, hit to Corwin, out at first. Cordes perished in the same way. Gunther knocked an ugly bounding grounder to Lewis who fielded it to Grandle who dropped the ball. Fisher singled; Gunther going to second. Van Zant singled scoring Gunther and Fisher. Van Zant taking second.

Matthews singled, scoring Van Zant and tying up the game.

Doyle was passed and Vance fanned, ending the agony.

Then the blow-off in the eleventh. Gunther again led off. This time he poled a double. Fisher was given life at first by Towell's error. Van Zant sacrificed advancing both runners.

Matthews hit to second for an out at first, but neither runner could score on the fast play.

Doyle then strode to the plate and Reno was instructed to pass him and was following instructions.

## THE OLD RELIABLE STILL IN THE LEAD

25 pounds best granulated sugar still \$1.95. Potatoes 35c per peck. Monitor flour \$1.00 per 25 pound sack. Defender 95c per sack. Gwinn Jefferson \$1.10 per sack. Fayette county honey, very fine, 20c per pound. Roasting ears. Cabbage. Spanish onions. Jersey sweet potatoes. New home grown tomatoes 5c per pound. Celery. Cantaloupes. Oranges. Bananas. Lemons. Cream of Rice, the new breakfast food, the finest on the market.

Killo, kills all bad odors. Drives away the mosquitoes. Don't do without it as it is good for so many things. 15c and 25c per box.

New Phone 7771—Bell 77.

Two bad balls found safety in Towell's big mit but the third Doyle reached over and gathered on the end of his trusty ash, poling it over the first baseman's head for a clean three base hit down the right foul line.

Vance then fanned but the beans were spilled.

Washington was helpless in their half. Noon, Jones and Towell went out in order.

The Hillsboro catcher, Johnson, had his hand split in the 4th, and Matthews came in from center and put on the windpad, catching a good game.

Van Zant pitched a classy game, tightening up after the fourth and holding the locals the balance of the road, to 3 little bingles.

The score:

	Wash.	C. H.	AB	R	H	PO	A	E

# DUE WARNING SAVED LIFE

By Associated Press Dispatch.

Asheville, N. C., August 14.—

Timely warning sent broadcast through endangered territory is

thought to have prevented any loss

of live as a result of the breaking

of the large dam here, in which

540 acres of land were inundated to

an average depth of 30 feet. How-

ever, great losses on crops are re-

ported.

The torrent was weakened by

every outlet from the valley and by

the time it reached Anderson, S. C.,

this morning, had spent much of its

force.

The flood passed through an al-

most uninhabited portion of Transyl-

vania county, which explains the

fact that no loss of life resulted.

Scotland Will

Make A Change

Committee Recom-

mends Abolition

of Liquor Dealing

Grocers and That

Hotels and Inns

Be Run By State.

(Associated Press Cable.)

London, August 14.—The com-

mittee appointed sometime ago to

advise the Government in regard to

proposals for purchase by the State

of the licensed liquor trade of Scot-

land has recommended that trade

in liquor by licensed grocers should

be abolished, and that hotels and

inns which depend mainly on this

traffic should be taken over by the

State.

The committee reported against

the purchase of distilleries.

Postponed

By Associated Press Dispatch.

Columbus, O., August 14.—By

agreement of the parties concerned

the hearing before the Public Util-

ities Commission of the Eastern

Ohio coal rates cases was postponed

today from September 5 to Septem-

ber 12.

Among the Contraband

(Associated Press Cable.)

London, August 14.—The most in-

teresting museum in London is not

open to the general public. It is

the museum of the censor and con-

tains a collection of most curious

exhibits which represent attempts

that have been made to evade the

British naval blockade since the out-

break of the war.

Most of these exhibits come from

the United States where thousands

of people of German extraction have

despatched all sorts of useful things

to friends and relatives in the Father-

land. Many of the exhibits indi-

cate the pains and ingenuity of the

senders; in some instances they

made a pound of lard look like a

copy of the morning paper or a

packet of pure rubber like a bundle

of narcissus bulbs.

A side of bacon weighing forty

pounds is mute evidence of the at-

tempt made by a St. Louis man to

assuage the hunger of some friends

or relatives in what was undoubtedly

his former home town. In his

anxiety to get the bacon to Ger-

many this man sent it by first class

mail and attached stamps to the ba-

con itself to the value of nearly \$5.

There are many other instances

in which the stamps on the pack-

ages by far exceed the value of the

contents. Many parcels have du-

plicate covers. They are addressed

to someone in a neutral country,

whose business it is to pull off one

cover and reposit them to the Ger-

man or Austrian address revealed

below.

An enterprising Buffalo man sent

a large number of letters each con-

taining a sheet of pure rubber. Rub-

ber has been a scarce commodity in

Germany for more than a year and

efforts have repeatedly been made

to get through the blockade all sorts

of these articles. Once in Germany

the rubber would be sent to a cen-

tral depot where it ultimately would

have emerged as rubber tires.

This censor's museum contains

huge bundles of newspapers or what

appeared at first glance to be news-

papers. Closer inspection reveals

that the neatly rolled ends are but
